

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

**Usage guidelines**

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

**About Google Book Search**

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

# STATE OF NEW YORK.

No. 74.

# IN ASSEMBLY,

MARCH 30, 1893.

## ANNUAL REPORT

OF THE

## FOREST COMMISSION.

STATE OF NEW YORK:

BUREAU OF THE FOREST COMMISSION,
ALBANY, *March* 31, 1893.

Hon. WILLIAM SULZER,
*Speaker of the Assembly:*

DEAR SIR—In pursuance of chapter 283, Laws of New York, 1885, we have the honor to present herewith the annual report of the Forest Commission, and respectfully ask that you will lay the same before the Legislature.

Yours very respectfully.

TOWNSEND COX,
THEODORE B. BASSELIN,
DUDLEY FARLIN,
*Commissioners.*

# ANNUAL REPORT.

*To the Legislature:*

The act of Legislature establishing the Adirondack park did not become a law until May last. Since then this department has been busy with the preliminary work necessary to the sales and purchases of lands as provided for in that law, and with the business incidental to such sales and purchases as have already been made.

There seems to be a misunderstanding on the part of some as to the provisions of this act relating to the sale of State lands within the Forest Preserve. Newspaper articles have appeared from time to time condemning any policy which would permit the sale of lands or "parting" with any acreage in the Preserve. In each instance such strictures seem to have arisen from a lack of information as to certain important provisions in the act. Under the law the State does not lose any forested territory, does not decrease its acreage, nor, strictly speaking, part with its lands by reason of these so-called sales.

The lands sold are outlying tracts, remote from the main forest, and, by reason of their situation and scattered locations, unavailable as a part of any State park or preserve. When sold, the proceeds are available only for the purchase of lands within the park, and as the proceeds are applied to that purpose immediately the transactions constitute, practically, an exchange of territory instead of a sale.

Furthermore, the isolated, outlying tracts, owing to their situation near, or within the populous farming districts, command prices which enable the Commission to exchange them for three or four times as many acres of forest land in the interior. These interior lands may have been divested of spruce or other mer-

chantable soft timber, but the remaining hard woods furnish a good forest cover; and, what is more important, these lands are located where they are needed to best carry out the aims and purposes of any well-defined plan. In short, by exchanging lands through this medium of sales and purchases, the State secures two desirable results — better location and increased acreage.

But if the State ever acquires enough territory within the Adirondack and Catskill regions to protect the important interests dependent on the preservation of the forests located there, it will have to inaugurate some more liberal and comprehensive plan. After making ample allowance for any increase in acreage arising from exchanges, three-fourths of the Adirondack forest will still remain in private hands and beyond the control of the State. About 500,000 acres are owned by private clubs; but as these clubs, with few exceptions, have granted large timber rights to prominent lumber firms, the outlook for the private preserves is but little better than that of the forest at large.

New York has only eighteen per cent of its area in forests; Germany has twenty-nine per cent. If our people intend to hold their small percentage they must vote the money to buy the lands, and the purchases should commence without further delay.

## Proposed Legislation.

The Forest Commission is required by law to make, in their annual reports to the Legislature, "such recommendations of further legislation or official action as they may deem proper."

In compliance therewith we would again recommend as in our previous annual reports, the appropriation of money for the purchase of forest land in the Adirondack and Catskill regions, and would strenuously urge that the amount be commensurate with the importance of the interests involved. Our reasons have been so fully and often set forth in our reports to the Legislature that we deem it unnecessary to reiterate them here, especially as the many arguments in favor of forest preservation are well known to every member of the State government.

# Lands Sold, Purchased, and Exchanged.

## Sales of Land.

The act establishing an Adirondack park became a law May 20, 1892. Since that time a large number of applications for the purchase of State lands situated outside the park have been forwarded to the Commission. Large tracts of desirable forest land situated within the park have also been offered to the Commission at one dollar and fifty cents per acre.

Under the direction of the superintendent the foresters have been busily employed during the entire season in examining the various lots for which applications to purchase had been made; also the lots which were offered for sale to the State. In both cases the land was thoroughly examined, lot by lot, and written reports on each forwarded to our office where they are now on file. These reports contain a detailed description of each lot, its situation, quantity and quality of timber, accessibility, and its value per acre. Over 80,000 acres were thus examined by the superintendent and his men, and the reports on the same filed in our office.

It having been decided to sell such of the outlying lands in Franklin county as would command a price sufficient to increase the State acreage, the following advertisement was inserted in the Malone Farmer, Malone Gazette, Plattsburgh Sentinel, and Plattsburgh Republican:

### State Lands for Sale.

Proposals for the purchase of State lands situated outside the boundaries of the Adirondack park having been received by this Department, now, be it known,

That in accordance with the provisions of sections 4 and 5, chapter 707, Laws of 1892, State of New York, entitled "An act to establish an Adirondack park and to authorize the purchase and sale of lands within the counties, including the Forest Preserve," the Forest Commission will contract to sell the following described lands, all in Franklin county, viz.:

In the town of Bellmont, Old Military Tract, Township 8, lots 55, 65, 66, 85, 86 and 87; and in Township 9, lot 300.

In the town of Franklin, Old Military Tract, Township 9, lot 296; and in Township 10, lots 186, 219, 227, 254, 255, 266, 267, 268.

In the town of Duane, Township 12, Great Tract One, Macomb's Purchase, lots 8, 16, 24, 48.

In the town of Brighton, the State's undivided interest in the northeast quarter of Township 18, Great Tract One, Macomb's Purchase.

Sealed proposals for the purchase of these lands, specifying the lot and the price per acre, will be received on or before Tuesday, January 3, 1893, after which date no bids will be considered.

The Forest Commission reserves the right to reject any or all bids.

All communications should be addressed to the Forest Commission, Albany, N. Y.

TOWNSEND COX,
THEODORE B. BASSELIN,
DUDLEY FARLIN,
*Commissioners.*

---

These lots do not include all the outlying lands in Franklin county belonging to the State, but only such as were mentioned in the various bids or applications received prior to the insertion of the advertisement.

Before the close of the year the following advertisements of outside lands in Fulton, Essex, Warren, Saratoga, Lewis, and St. Lawrence were also inserted in the leading papers of the respective counties:

State Lands for Sale.

Proposals for the purchase of State lands situated outside the boundaries of the Adirondack park having been received by this department, now, be it known;

That in accordance with the provisions of sections 4 and 5, chapter 707, Laws of 1892, State of New York, entitled "An act to establish an Adirondack park, and to authorize the purchase and sale of lands within the counties including the Forest Preserve," the Forest Commission will contract to sell the State's interest in the following described parcels of land, all in Fulton county, viz.:

In the town of Bleecker, Chase's Patent, lots 27, 44, 56, 41, 42, 53, 74, 79, 101, 69, 8. In Glen, Bleecker, and Lansing Patent, lots 34, sub 4; 35, subs 2 and 3. Mayfield Patent, lot 91, south part.

In the town of Mayfield, Glen, Bleecker, and Lansing Patent, lot 16, E 1-2, sub 8.

In the town of Stratford, Jerseyfield Patent, lots 1, 63, 88, 90.

In the town of Caroga, Glen, Bleecker, and Lansing Patent, lots 45, sub 4; 51, subs 1, 2, 3, 4, 5, 7, 8; 52, subs 2 and 6; 53, subs 7 and 10; 58, sub 8; 62, subs 2, 3, 6, 7, 9, 10. In Mayfield Patent, lots 102, 103, 106.

Sealed proposals for the purchase of these lands, specifying the lot and the price per acre, will be received until 12 o'clock noon, on or before July 1, 1893, after which date no bids will be considered. The Forest Commission reserves the right to reject any or all bids.

All communications should be addressed to the Forest Commission, Albany, N. Y.

*Commissioners.*

---

As in the case with the Franklin county advertisement, the time during which bids could be received extended into the next year (1893), and so further mention of these matters is deferred until our next annual report.

## Purchase of Lands.

During the past year the fund at the disposal of the Commission for the purchase of land amounted to $15,714, a sum which had accrued from the sale of the lands in Townships 10, 18 and 12, Franklin county, and in the town of Edinburgh, Saratoga county.* These sales were made in 1891, and a detailed statement of the lot numbers, purchasers' names, and prices paid appeared in our annual report for that year.

The law authorizing those sales provided, at the same time, that the proceeds should constitute a special fund to "be invested in the purchase of forest land." But the Comptroller ruled that the funds thus obtained were not available for such purpose until

* See Comptroller's Report for 1892, pp. 836, 137.

they had been specially reappropriated by the Legislature." The Forest Commission accordingly caused the following bill to be introduced in the Legislature:

"An act making an appropriation of certain moneys received from the sale of lands in the Forest Preserve.

"Section 1. The proceeds of all land sold in the Forest Preserve by virtue of the provisions of chapter four hundred and seventy-five of the laws of eighteen hundred and eighty-seven, and now remaining unexpended in the treasury, being the sum of fifteen thousand seven hundred and fourteen dollars, is hereby appropriated for the purchase of lands so located within such counties as include the Forest Preserve as shall be available for the purposes of a State park in the manner provided by said act.

"§ 2. This act shall take effect immediately."

This bill was passed without dissent, and became a law (Chapter 709, Laws of 1892), May 20, 1892, after which time the specified amount was available. Out of this fund the following purchases of land were contracted for:

In Township 26, T. & C. P., town of Minerva, Essex county:

| Lot. | Acres |
|---|---|
| 8 | 240 |
| 10 | 240 |
| 11 | 240 |
| 14 | 200 |
| 19 | 220 |
| 31 | 160 |
| 34 | 160 |
| 37 | 210 |
| 39 | 200 |
| 42 | 200 |
| 47 | 200 |
| 50 | 200 |
| 56 | 200 |
| 69 | 200 |
| 73 | 292 |
| 79 | 244 |

| Lot. | Acres. |
|---|---|
| 85 | 248 |
| 88 | 236 |
| 91 | 236 |
| 107 | 236 |
| 113 | 103 |
| 116 | 236 |
| 119 | 236 |

These lots aggregating 4,937 acres, were offered by P. J. Marsh, of Albany, N. Y., at one dollar and fifty cents per acre.

Also, in the same township, the northwest part of lot 30, containing fifty acres. This lot was offered by Mrs. Janet Russell Martens, of Brooklyn, N. Y., at one dollar and fifty cents per acre.

Also, in the same township, a part of lot No. 117, containing fifty-six acres, offered by P. H. Vernon, of New York, at one dollar and fifty cents per acre.

Also, in township 14, Pond's survey, T. & C. P., town of Minerva, Essex county, lots 89, 90, 91 and 92, containing in all 960 acres; and, in township 27, Richards' survey, T. & C. P., town of Newcomb, Essex county, lots 10 and 11; and in the same township, Thorn's survey, lots 12, 13, 14, 26, 27 and 37, containing 1,072 acres. These lands, in townships 14 and 27, aggregating 2,032 acres, were offered by Patrick Moynehan, of Glens Falls, N. Y., at one dollar and fifty cents per acre.

As yet, none of these lands have been deeded to the State nor money paid on them, owing to a delay in furnishing titles satisfactory to the attorney of the Commission. The various parties expect, however, to furnish perfect deeds within a short time..

These lands are all well-forested, being covered with hard-wood timber of original growth. The spruce of merchantable size has been removed. On some of the lots it was cut several years ago, and the young spruces which were then left will soon attain a merchantable size, making the forest nearly as valuable as before. The purchase of the land in township 26 was deemed especially advisable because the State already owns a large proportion of that tract, the greater part of which was in isolated lots sur-

rounded by the lands offered by Mr. Marsh. By purchasing his holdings, the State will own nearly the whole township, and have its land mostly in a solid block. The small parcels offered by Mrs. Martens and Mr. Vernon were accepted because they were not only desirable forest land, but the State already owned the remainder of each lot. The lands offered by Mr. Moynehan are also well wooded, and adjoin large blocks of the Preserve.

We submit herewith the report of the superintendent who made a personal examination of these lands before they were purchased:

*September* 1, 1892.

*Forest Commission, Albany, N. Y.:*

Dear Sirs.— In the matter of the lands offered for sale by Patrick Moynehan, I would respectfully report as follows:

The tract offered for sale by Mr. Moynehan consists of lots 80, 89, 90, 91 and 92, situated in Township 14, Pond's survey, T. and C. P., town of Minerva, Essex county, containing 960 acres; and the following lots in Township 27, Richards' survey, T. and C. P., town of Newcomb, Essex county, viz.: Lots 10, 11; and in Thorn's survey, lots 11, 12, 13, 14, 26, 27 and 37, containing 1,072 acres; making in all 2,032 acres.

These lands have been personally examined, lot by lot, by Forester Powers, whose detailed description of each is filed herewith. I have also personally examined the various lots in Township 14, and find them as described by Forester Powers.

These lots were lumbered several years ago, but they are now covered with a good, thick growth of hard wood timber, while in some places the young spruces have grown sufficiently to furnish a second cutting of good timber.

I would recommend the purchase of these lands at $1.50 per acre, with the exception of lot 11, Richards' survey, which is evidently a poor lot, according to Forester Powers's report. I have not been on this lot personally, and, until I learn more about it, cannot recommend its purchase.

Yours respectfully.

WILLIAM F. FOX,
*Supt. State Forests.*

*September* 1, 1892.

*Forest Commission, Albany, N. Y.:*

Gentlemen.— In the matter of certain lands in Township 26, T. and C. P., Essex county, offered for sale by P. J. Marsh, which I was instructed to examine, I would respectfully report as follows:

The State already owns 13,357 acres in this Township. The 5,000 acres offered by Mr. Marsh are scattered throughout the State lands, constituting in many places a series of alternate lots. The purchase of these lands will consolidate the State holdings in nearly an unbroken tract. The portion remaining unbought will be offered to the State next year, or as soon as some lumbering operations can be completed.

The other lots in this township were lumbered several years ago, and have already reverted to the State for taxes. The lots now offered by Mr. Marsh were the most desirable and best timbered ones. They were lots which had not reverted; and the taxes were kept paid up because they were a better class of lands.

Last June I made a thorough examination of this township in company with Forester Powers, and spent several days in going over this territory. That part of the township which is offered for sale by Mr. Marsh is a good, hard-wood forest. The large spruce has been cut, and in some places, which were recently lumbered, the pulp wood was taken also. The spruce timber was not so thick, however, but that a good growth of hard wood remains, and the land is densely shaded. There is only one lot in which there is any clearing or opening. This is on lot 37, through which runs the highway from Aiden Lair to Newcomb. At some time there has been land cleared there for agricultural purposes, but not to exceed fifty acres.

I noticed that in the list of lots offered by Mr. Marsh, he does not include lot 108; and I would suggest, as a condition to the bargain, that this lot be included. It is situated on the north side of Hewitt lake, a beautiful sheet of water about one mile in length. The State owns all the shore of this lake, except along lot 108. The lake is well stocked with trout, and while there I

noticed two parties, with their guides, who were having good success in fishing. It is also noted as a good runway for deer in the fall, several having been killed there last season.

On the west side of the turnpike, not far from Aiden Lair, Lake Balfour is situated. This lake, formerly known as Long Pond, is over one mile in length. Its shores are high and well wooded, and the lake is a favorite resort for sportsmen. The State owns all of this lake, except a portion bordering on lot 104. This lot, however, is not included in Mr. Marsh's offer, as it is owned by another party. I do not think lot 104 can be bought for one dollar and fifty cents per acre, as most of it is cleared land. There are twenty-three small lakes and ponds in this township, eighteen of which are naturally stocked with trout, and through this proposed purchase they may become the property of the State. Only five of these lakes or ponds appear on our new map, and they are omitted also from the other maps of Township 26, on file in our office, and at the Comptroller's. But while at Chestertown recently, in the office of Mr. Charles H. Faxon, he showed me a map of Township 26, on which all these lakes and ponds are located. Mr. Faxon owns some land, also, in this township. The Boreas river runs through its entire breadth, and the territory, though hilly, is well forested.

I would recommend that Mr. Marsh's offer to sell at one dollar and fifty cents per acre be accepted, provided he includes lot 108 in his schedule.

Yours respectfully.

WILLIAM F. FOX,
*Supt. State Forests.*

## Exchange of Lands.

The Hadley Act, under which all exchanges were made, was repealed by the passage of the Adirondack park bill, May 20, 1892. Prior to that date only one exchange was made during the past year. This was made on the application of A. C. Hall, of Albany, N. Y., who applied for certain lands in Hamilton county, offering in exchange other lands in the same county.

At a meeting held January 5, 1892, the following action was taken:

"Resolved, That the Forest Commission, in pursuance of chapter 475, Laws of 1887, hereby recommends an exchange of lands with Mr. A. C. Hall, provided that a selection be made from the lands of both parties so that the State shall receive at least three acres for one."

The lands sought for by Mr. Hall in his application were as follows: Hamilton county, town of Long Lake, Totten and Crossfield's Purchase.

*Township* 37.

| Total | 1,301 |

None of these lots were contiguous to each other. Each one was in an isolated location, and all were situated several miles from any other part of the Preserve. In exchange for these, the superintendent selected the following-named lands from a list submitted by Mr. Hall: Hamilton county, town of Arietta, Moose River Tract.

*Township* 9.

| Lot. | Acres. |
|---|---|
| 76 | 200 |
| 77 | 200 |
| 78 | 200 |
| 79 | 200 |
| 90 | 200 |
| 91 | 200 |

| Total | 4,000 |

By this exchange the State receives over three acres for one, and increases its acreage of forest land accordingly.

These lands are situated about two miles from, and north of, Piseco lake, and adjoin a large block of territory already owned by the State. They are well forested, having never been injured by fire or windfalls. In altitude they are about 1,950 feet above the sea, the land in this township (9, Moose River Tract) sloping upward to the north until it attains, on the north line, an altitude of 2,358 feet. The spruce has been cut on these lots, but its loss is more than offset by the extra acreage and better location obtained in the exchange.

# Cancellations and Redemptions.

During the past year the State lost title to 19,782 acres in the Forest Preserve through cancellations or redemptions. The lots thus stricken from our printed list of lands, and the reasons for the same, were as follows:*

December 10, 1891.—Hamilton county, town of Long Lake: Totten and Crossfield Purchase, Township 21; lots 1, 2, 3, 4, 5, 13, 14, 15, 16, 17, 25, 26, 27, 28, 29, 37, 38, 39, 40, 41, 49, 50, 51, 52 and 53. The tax sales of 1877, 1881 and 1885 were canceled, on the application of W. W. Durant, of New York, on the ground that an undivided half of each of said lots in the years 1869 to 1879 inclusive belonged to the Adirondack Company, and were exempt from taxation. Amount canceled, 5,000 acres.

January 29, 1892.—Hamilton county, town of Lake Pleasant: Totten and Crossfield purchase, Elm Lake Road Tract, Township 9; lots 12, 13, 15, 16, 17, 18, 19 and 20. The tax sales of 1877 and 1885 were cancelled on the application of the Morgan Lumber Company, of Glens Falls, N. Y., because these lands were doubly assessed during each of the years 1870 and 1879, for which taxes said sales were made. Amount canceled, 400 acres.

February 4, 1892.—Essex county, town of Minerva: Totten and Crossfield purchase, Bailey's patent, Township 25; lots 10 and 112. These lands were redeemed from the tax sale of 1885 by Charles H. Faxon, of Chestertown, N. Y., on the ground of occupancy. Amount redeemed, 330 acres.

February 20, 1892.—Hamilton County, town of Wells; Totten and Crossfield Purchase, Township 1, southwest 1-4; lots 3, 4, 6, 18, 19 and 20: The tax sales of 1881 and 1885 were canceled on the application of Ostrander & Marsh, of Albany, N. Y., on the

* Not included in previous report.

ground that the board of supervisors, from 1866 to 1881, inclusive, failed to extend the taxes on the assessment-roll of the town of Wells. Amount canceled, 1,558 acres.

February 22, 1892.—Hamilton County, town of Long Lake; Totten and Crossfield Purchase, Township 22, south 1-2; lots 39, 40, 46 and 50: The tax sales of 1877, 1881 and 1885 were canceled upon the application of W. W. Durant, president of the Adirondack railway, because these lands, during the years 1868 to 1879, inclusive, belonged to the Adirondack Company, and were exempt from taxation. Amount canceled, 490 acres.

March 7, 1892.—Clinton County, town of Plattsburgh; Old Patent, lot 39: This land was redeemed from the tax sale of 1885 by S. H. Vilas, of Plattsburgh, N. Y., on the ground of occupancy. Amount redeemed, 100 acres.

March 23, 1892.—Saratoga county, town of Edinburgh; Glen (John) and Forty-four Others ' Patent; lot 117: The tax sale of 1881 was canceled on application of C. L. Steele, of Broadalbin, N. Y., because said land with the remainder of lot 117, all of lots 118 and 119, and a part of lot 120 of said patent, during the years 1878 to 1882, inclusive, formed one continuous farm, which was occupied all of said years, the dwelling-house of said farm, thus occupied being then located on lot 119. Amount canceled, 135 acres.

March 24, 1892.—Delaware County, town of Colchester; Hardenburgh Patent, great lot 35, division 16; lot 2, northwest part: The tax sales of 1877, 1881, and 1885 were canceled on application of E. W. Lindsley, of Downsville, N. Y., on a claim of occupancy. Amount canceled, forty acres.

March 25, 1892.—Delaware County, town of Colchester; Hardenburgh Patent, great lot 5; lots 349 and 358: The tax sales of 1877, and 1881 were canceled on application of E. W. Lindsley, of Downsville, N. Y., on the ground that it was resident land from 1865 to 1876. Amount canceled, 336 acres.

April 11, 1892. Lewis county, town of Diana; Macomb's Purchase, Great Tract 4; lots 337, and 338: These lands were redeemed from the tax sales of 1881, and 1885, by S. H. Beach, attorney, of

Watertown, N. Y., on the ground of occupancy. Amount redeemed, 788 acres.

April 11, 1892.—Franklin County, town of Harrietstown; Macomb's Purchase, Great Tract 1, Township 23, southeast 1-4: The tax sales of 1877, 1881, and 1885 were canceled on the application of Smith M. Weed, of Plattsburgh, N. Y., on the ground that this quarter was assessed as non-resident land at times when persons were living there. Amount canceled, 6,169 acres.*

April 18, 1892.—Hamilton County, town of Lake Pleasant, Totten and Crossfield Purchase, Township 2 (Jones's map); lot 10, northwest corner: The tax sale of 1881 was canceled on application of Clark Satterlee, of Newton's Corners, N. Y., on the ground that the county taxes for 1872, and 1873 on a part of this lot were paid. Amount canceled, ninety-one acres.

April 19, 1892.—Hamilton County, town of Long Lake; Totten and Crossfield Purchase, Township 35, southwest one-fourth: The State's title from the 1885 tax sale to an undivided half interest in this tract was set aside on the claim that Clara E. Durant bid in this land at that sale and paid her bid. Amount canceled, 2,130 acres.

December 1, 1892.—Essex County, town of North Hudson; North Riverhead Tract, lot 91: The land was redeemed from the tax sale of 1885 by George W. Ostrander and Son, of Albany, N. Y., on a claim of occupancy. Amount redeemed, 118 acres.

December 1, 1892.—Essex County, town of Keene; North River Head Tract, lot 119: This land was redeemed from the tax sale of 1885 by George W. Ostrander and Son, of Albany, N. Y., on a claim of occupancy. Amount redeemed, 138 acres.

December 1, 1892.—Essex County, town of St. Armand; Old Military Tract, Township 12, Richards' survey; lot 9, sub. 2. This was redeemed from the tax sale of 1885 by Mrs. L. J. Cameron, of Ray Brook, N. Y., on a claim of occupancy. Amount redeemed, 160 acres.

December 1, 1892.—Essex County, town of North Elba, Old Military Tract, Township 12, Richards' survey; lot 9, sub. 2. This

* By this cancellation the State lost possession of a large portion of the shores of Upper Saranac and Middle Saranac Lakes.

land was redeemed from the tax sale of 1885, by B. Pond, of Elizabethtown, N. Y., on a claim of occupancy. Amount redeemed, 79 acres.

December 1, 1892.—Essex County, town of North Elba, Old Military Tract, Township 11, Richards' survey, lot 317. This land was redeemed from the tax sales of 1877, 1881, and 1885, by C. G. Hall, of Plattsburgh, N. Y., on a claim of occupancy. Amount redeemed, 200 acres.

December 1, 1892.—Essex County, town of North Elba, Old Military Tract, Township 11, Richards' survey, lot 162. This land was redeemed from the tax sale of 1885, by C. G. Hall, of Plattsburgh, N. Y., on a claim of occupancy. Amount redeemed, 200 acres.

December 1, 1892.—Franklin County, town of Franklin, Old Military Tract, Township 10, lot 181. This land was redeemed from the tax sales of 1871, 1877 and 1881, by C. G. Hall, of Plattsburgh, N. Y., on a claim of occupancy. Amount redeemed, 200 acres.

December 1, 1892.—Warren County, town of Johnsburgh, Totten & Crossfield Purchase, Township 11, lot 33. This land was redeemed from the tax sales of 1877, 1881, 1885, by P. J. Marsh, of Albany, N. Y., on a claim of occupancy. Amount redeemed, 300 acres.

December 1, 1892.—Essex County, town of St. Armand, Old Military Tract, Township 11, lot 69. This land was redeemed from the tax sales of 1877, and 1881, by C. J. Baker, per Monroe Hall, of Plattsburgh, N. Y., on a claim of occupancy. Amount redeemed, 160 acres.

December 1, 1892.—Essex County, town of North Elba; Old Military Tract, Township 12, Thorn's survey; lot 120, west one-half. This land was redeemed from the tax sale of 1881 by C. G. Hall, of Plattsburgh, N. Y., on a claim of occupancy. Amount redeemed, 80 acres.

December 25, 1892.—Essex County, towns of North Hudson and Elizabethtown; North River Head Tract, lot 84. The tax sale of 1877 was canceled on application of H. A. Putnam, of Elizabethtown, N. Y., on a claim that the taxes had been paid. Amount canceled, 160 acres.

# TRESPASSES.

We submit herewith a statement of the various sums, amounting to $2,080.32, collected by the Commission and turned over to the State Treasurer during the past year, for trespasses on the Forest Preserve:

1892.

| | | |
|---|---|---|
| Jan. | 13. For logs cut in Franklin county, town of Bellmont, on lot 300, Township 9, Old Military Tract ..... | $77 40 |
| | 25. For logs cut in Essex county, town of Keene, on lot 52, Townships 1 and 2, Old Military Tract ..... | 39 25 |
| Feb. | 2. For logs cut in Essex county, town of North Elba, on lot 31, Township 12, Thorn's survey, Old Military Tract..... | 16 00 |
| | 9. For logs cut in Essex county, town of North Elba, on lot 59, north one-half, Township 12, Thorn's survey, Old Military Tract ..... | 7 50 |
| Mar. | 22. For logs cut in Essex county, town of North Elba, on lot .., Township 11, Old Military Tract ..... | 10 00 |
| Mar. | 25. For logs cut in Franklin county, town of Franklin, on lot 231, Township 10, Old Military Tract ..... | 30 00 |
| | 25. For logs cut in Franklin county, town of Franklin, on lots 253, 254, and 258, Township 10, Old Military Tract ..... | 43 00 |
| | 31. For firewood cut in Franklin county, town of Franklin, in Township 10, Old Military Tract ..... | 7 20 |

1892.

| | | |
|---|---|---|
| April | 11. For firewood cut by various parties in Franklin county, town of Franklin, on Township 10, Old Military Tract..... | $84 00 |
| | 21. For logs cut in Lewis county, town of Lyonsdale, on lot 208, Brantingham Tract, | 68 25 |
| | 26. For timber cut in Essex county, town of Long Lake, on Township 40, Totten and Crossfield Purchase ..... | 20 00 |
| | 28. For firewood cut by various parties in Franklin county, on Township 10, Old Military Tract ..... | 80 75 |
| May | 17. For logs cut in Franklin county, town of Franklin, on lots 18 and 19, Township 10, Old Military Tract ..... | 253 20 |
| | 25. For logs cut in Hamilton county, town of Wells, on lot 7, Lefferts Tract..... | 125 00 |
| Aug. | 17. For logs cut in Franklin county, town of Franklin, on lot 96, Township 10, Old Military Tract ..... | 60 00 |
| | 17. For wild grass sold in Franklin county on lot 232, Township 10, Old Military Tract, | 8 00 |
| | 18. For firewood cut by various persons in Franklin county, on Township 10, Old Military Tract ..... | 40 25 |
| Sept. | 20. For logs cut in Franklin county, town of Franklin, on lot 89, Township 10, Old Military Tract ..... | 30 00 |
| | 24. For 700 railroad ties cut in Franklin county, on Township 10, Old Military Tract..... | 56 00 |
| Oct. | 27. For hop-poles cut in Lewis county, town of Lyonsdale, on lot 208, Brantingham Tract ..... | 7 10 |
| | 27. For logs cut in Franklin county, town of Franklin, on Township 10, Old Military Tract ..... | 68 00 |

| 1892. | | |
|---|---|---|
| Dec. 12. | For logs cut in Franklin county, town of Franklin, on lot 138, Township 10, Old Military Tract ..... | $75 00 |
| 13. | For building timber cut in Hamilton county, town of Long Lake, on Township 40, T. and C. P..... ..... | 90 00 |
| 12. | For logs cut in Essex county, town of St. Armand, on lots 145, and 146, Township 11, Old Military Tract ..... | 784 12 |
| Total | ..... | $2,080 32 |

The names of the trespassers are omitted in the preceding statement, because in many instances the trespass was unintentional, owing to a lack of properly marked boundary lines. In one case however the circumstances were such that the offender was prosecuted and imprisoned in the Franklin county jail at Malone.

# Tax Titles.

One of the greatest difficulties which the Forest Commission has had to contend with in the administration of the laws affecting the Forest Preserve has been the uncertainty of the tenure by which the State held the great body of its land in the Adirondack forest. Most of the title to such lands came from tax sales — in some instances the State having title from three or four sales. In such cases a fair presumption would be that such title ought to be good; but that did not always prove to be the case when an effort happened to be made by the State to assert its title.

There are two methods of avoiding a tax sale — or defeating a title acquired from it; the one, by redemption from such tax sales; the other, by a cancellation of it. A redemption may be had as a matter of right from a perfectly valid and regular tax sale; a cancellation, however, can not be granted unless such tax sale for some reason or other has been irregular, and therefore invalid. A redemption is based upon facts and circumstances arising after a tax sale; a cancellation upon conditions existing before it.

Applications for the cancellation or redemption from tax sales must be made to the Comptroller of the State, except in certain specified counties, and the Comptroller is the sole judge and arbiter in the hearing and disposal of them, except so far as his action may be reviewed by the courts. Any person, however, may make such application, *whether such person had any interest or rights in the land at the time of the sale or not.*

Prior to the year 1891, the evidence in support of such applications was presented in the form of affidavits, with no provision of law for the presentation of opposing affidavits, and no State department or officer charged with the duty of preparing or

presenting them. Such ex parte evidence became unsatisfactory and unreliable in about the same ratio as the land which was the subject of it increased in value. Consequently, in the year 1891, an act was passed (Chapter 211), authorizing the Comptroller to appoint a commissioner to hear the evidence, take proof of all the material facts in the case, and report the same to the Comptroller with an opinion thereon. Even in that act no provision was made as to who should represent the State when its title was affected; but through the courtesy of the Comptroller, the Forest Commission, in some instances before as well as after the passage of the act, were notified of the applications, and they took such steps as they were able to in order to put the Comptroller in possession of all the facts in the case.

One of the principal grounds upon which claims for redemption were based was that of occupancy. The law provided that if any person should be in the actual occupancy of the tract of land sold for taxes, or any part thereof, at the time of the expiration of the two years allowed by law for the redemption thereof, and no notice of the tax sale was served upon such person within a prescribed time, the person claiming such occupancy, or any other person, could, at any subsequent time, redeem the tract of land sold by paying the taxes charged against it, together with a certain per cent as interest and costs, all of which would, in most instances, be far less than the increased value of the land at the time of the redemption. Under such conditions many questions arose as to what constituted an occupancy under the statute. In some instances the courts held that the most trivial acts in connection with the land constituted an occupancy which would entitle the occupant to a notice from the purchaser to redeem.

One of those questions of occupancy, which is claimed to be within the decisions of the earlier cases, arose in Hamilton county, and was as follows:

In the year 1877, an old hunter and guide, named Alvah Dunning, built a camp on an island in what is known as the Eighth Lake of the Fulton Chain, in Township 5, Totten and Crossfield

Purchase, Hamilton County. This island was from a half an acre to an acre and a quarter in extent. It was open, uninclosed, wild land, covered with a few cedar trees, bushes, and second-growth pine. There were no improvements on it, except so far as a rude camp erected there might be considered an improvement. No part of the land was ever fenced or cleared, nor had the ground ever been plowed or broken up. The camp was a one-story building, rudely constructed of logs, with no chimney to it, the smoke passing out through a stove-pipe in the roof; it was divided into two rooms, with one small window in each room. There was no floor in the outer room, and only a rough floor of unmatched boards in the inner room. The only furniture or furnishings in it were a cook-stove, hunter's bed, three or four camp stools, and such cooking utensils as a hunter would use. Dunning claimed to have used the camp and island as a home during all the years from 1877 to the present time; but it was an undisputed fact that, during that time, he had resided at different places upon Raquette Lake, situated in an adjoining township, in the town of Long Lake; and that he had a substantial dwelling-house at the mouth of Brown's Tract Inlet, on Raquette Lake, where he had an acre of cleared, cultivated land upon which he raised corn, potatoes, cabbage, and other vegetables every year.

The camp in question, on Township 5, was distant from six to six and one-half miles from Dunning's house at the mouth of Brown's Tract Inlet, and the only means of communication between them was by water, for four miles, with the balance of the way by trial. When the lakes were frozen over in winter, the only means of reaching the island was to go on foot through the woods. There was no highway within seven miles of the place, the nearest dwelling-house being Dunning's, on Raquette Lake, six and a half miles distant. Dunning was in the habit of going over to the island occasionally to hunt, trap, and fish. In the fall he went once or twice a week; not so often at other times. In the winter he went over to look at his traps, but never stayed any length of time.

Dunning's use of the camp was of the most temporary character; he simply did as hunters are accustomed to do in that locality, having a permanent home camp or dwelling-place, and built shanties in different parts of the woods for his shelter and temporary use when he happened to be in that vicinity. This camp on the island was only used at times by him. Dunning had no license or permission from the owner or from any other person to use this island; he had no more right there than any other stranger, and made no pretense or claim of right.

He was using this camp in the manner spoken of following each of the tax sales of 1881 and 1885, at the time when he would have been entitled to a notice to redeem if such use of the island had constituted an actual occupancy. This island was included in a tract of about 14,000 acres of land, which had been sold in one parcel at each of the tax sales of 1881 and 1885, and on his occupancy of the island an application was made to the Comptroller — by a person other than Dunning, and one who had no interest in the land at the time of the tax sale — to redeem the entire tract of 14,000 acres.

The Comptroller thereupon appointed a commissioner to take testimony in the case, and notified the Forest Commission of such appointment. Two days were spent in Hamilton County taking the evidence, the applicant being represented by counsel, and the Forest Commission by its secretary, C. O. McCreedy, and inspector, John H. Burke, who is also an attorney-at-law.

After the close of the testimony, the evidence and all the proceedings were reported to the Comptroller, who, after giving the matter careful consideration, denied the application.

The case was then taken by the applicant to the Supreme Court upon a writ of certiorari and argued at the November General Term, at Albany, in the year 1892, the Attorney-General appearing in behalf of the State. The determination of the Comptroller was sustained in the following able opinion written by Justice Herrick, in disposing of the case, and which is given here in full for the purpose of showing the nature of the claims made to

Photograph showing the extent of the alleged occupancy upon which a claim was based for the redemption of Twp. 8, Hamilton County.

defeat the State's title, and the necessity of some legislative act defining occupancy:

SUPREME COURT — GENERAL TERM — THIRD DEPARTMENT.

Mayham, P. J., Putnam and Herrick, JJ.

Albany, *November*, 1892.

The People of the State of New York, ex rel. P. J. Marsh, Appellant,

*against*

Frank Campbell, as Comptroller of the State of New York, Respondent.

J. W. Houghton (A. D. Wait, of counsel), for appellant.

John W. Hogan (S. W. Rosendale, Attorney-General, of counsel), for respondent.

Herrick, J.— This is a writ of certiorari to review the determination of the Comptroller of the State of New York, denying the application of the relator for redemption of certain lands, about 14,000 acres, sold by the State for the non-payment of taxes at the tax sale of 1881, on the ground that the said lands were occupied from the year 1875 up to the time of the application to redeem, and that the People of the State of New York never served notice upon such occupant as required by law.

The alleged occupant is one Alvah S. Dunning. Upon an island about one acre in extent, situated in a lake bordering upon or included in the tract of land so sold for taxes, the island being a part of such tract, the said Dunning erected a log building, thirteen feet wide and twenty-six feet deep, the sides five to six feet in height, the middle of the building being about ten feet in height. The roof was covered with bark. Inside, the building was divided into two rooms by a log partition; the front was thirteen by fourteen feet, no floor to it, and used as a woodshed; the second room, thirteen by twelve, with a board floor, and a window in the

rear. It contained a hunter's bed, three or four camp stools, a stove, with a pipe going through the roof, a frying-pan, two or three kettles, water pail, teapot, knives and forks, cups and saucers. The island was uncultivated, the land uninclosed, and with no improvements upon it except the log building, which I have described. About six miles distant from this island, in another township, Dunning resided with his family, having there a dwelling-house and outbuildings, and about an acre of cultivated ground. Dunning is a hunter and guide, and visited the log house on the island from time to time, using it as a hunting and fishing station, and taking parties there on hunting and fishing excursions. It is a custom among guides and hunters in that vicinity to have camps in different localities for their use in hunting and fishing, having a permanent residence elsewhere. Dunning does not claim to own the land in question, or any part of it.

No notice of sale or to redeem was ever served upon Dunning or any of his family.

I do not think it was necessary to serve notice upon him.

The object of the statutes, as was said by Nelson, J., in Comstock v. Bradley, 15 Wend., 348, in speaking of a similar statute, is to "afford any person who might happen to be an occupant * * * an opportunity to redeem, presuming that he was either owner or in some way legally interested in the land."

Here there was no pretence of ownership or legal interest, and the case, it does not seem to me, comes within the spirit of the law.

I have been referred to no case defining what is meant by the words "actual occupancy" in the statutes.

But it does not seem to me that the erection of a hunting lodge, hut or house, to be occasionally used for hunting or fishing purposes, where there is no claim of ownership of the land, constitutes an "actual occupancy."

It appears that it is the custom of the guides and hunters of the North Woods to erect or establish so-called camps, in various localities, to be used by them in their hunting and fishing excur-

sions; a single hunter might have several located far apart, in different patents or townships, and it is hardly conceivable that the occasional and temporary use of these lodges or camps constitutes an actual occupancy within the meaning of the statute, in the absence of any claim of title to the land upon which the lodge or camp is located.

The statutes seem to have contemplated an actual residence, or dwelling-house; it might be without claim of title, merely the possession of a squatter, but still the establishment of a household; it reads: "Such notice may be served personally, or by leaving the same at the dwelling-house of the occupant, with any person of suitable age and discretion, belonging to his family." (§ 69, chap. 427, Laws of 1855.)

This evidently contemplates a dwelling-house, upon the land to be sold, upon the place claimed to be occupied; it does not contemplate a service at the dwelling-house of a person in New York city who has built a hunting camp in the North Woods, which he uses from time to time for hunting and fishing. Dunning had his dwelling, his family, and place of actual residence six miles away. Undoubtedly a person may have a residence in one place and also occupy land in another, as in Stewart v. Crysler (100 N. Y. 378), where the land was used for the storage of lumber by a person who lived elsewhere; or as in Neland v. Bennett (5 Hill, 287), where a portion of the land was cultivated, some of it used for pasture, and wood chopped and removed from it by a person who lived at a distance therefrom, but I do not think that the establishing of a hunting camp, the building of a log-house to be used from time to time upon hunting and fishing trips, with no other improvements or use of the land, by a person living elsewhere with his family, with no claim of title to, or interest in, the land upon which the camp or hunting lodge is established or built, constitutes an actual occupancy within the meaning of the statute. But conceding that the facts recited constitute an actual occupancy by Dunning it would only be an occupancy of the island; it is separable from the main land and

was not used by him in conjunction with it in such a manner as to make him an occupant of the whole tract. The use of an island an acre in extent, as a hunting camp without any use of the main land, except to roam over it in pursuit of game does not to my mind constitute an actual occupancy of the whole tract of 14,000 acres.

(Thompson v. Burhans, 61 N. Y. 52; Same v. Same, 79 id. 93.)

The determination of the Comptroller should be affirmed, with costs and printing disbursements.

I concur, S. L. M. I concur, J. R. P.

# Leasing Camp Sites.

The law authorizing the Forest Commission to lease land, chapter 707, Laws of 1892, provides that:

§ 9. "The Forest Commission shall have power to lease, from time to time, as it may determine, tracts of land within the limits of the Adirondack park, not exceeding five acres in any one parcel to any one person, for the erection of camps or cottages for the use and accommodation of campers, such leases to be general in form, except as to the term and amount of rental, and the term not to exceed five years, and the leases to contain strict conditions as to the cutting and protection of timber, the prevention of fires, and a reservation of a right of passage over the same for travelers at all proper and reasonable times, and to contain a covenant on the part of the lessee or lessees to observe the ordinances or regulations of the Forest Commission, theretofore prescribed or thereafter to be prescribed, as the same may be from time to time. No exclusive fishing or hunting privilege shall be granted any such lessee."

After a careful examination of the various localities which might be desirable for camping purposes, the superintendent recommended that the five-acre leases along the lake shores should be staked out 20x40 rods, with a water frontage of twenty rods, and running back forty rods from the lake; and that leases of less size should be laid out in similar form, and with a like proportion of frontage on the lake or stream where they may be situated.

The following form of lease, prepared by Mr. John H. Burke, attorney of the Commission, and approved by Attorney-General

Rosendale, was submitted to the Commission at one of its meetings and adopted:

"This indenture, made this ..... day of ....., in the year one thousand eight hundred and ninety ....

Between the People of the State of New York, by the Forest Commission of said State, of the first part, and ..... of the second part:

Whereas, by an act of the Legislature of the State of New York, approved May 20, 1892 (chapter 707), entitled "An act to establish the Adirondack park, and to authorize the purchase and sale of lands within the counties including the Forest Preserve," power and authority was given to the said Forest Commission to lease from time to time, as it may determine, tracts of land within the limits of the Adirondack park, not exceeding five acres in any one parcel to any one person, for the erection of camps and cottages, for the use and accommodation of campers.

Now, therefore, witnesseth: That at a meeting of the said Forest Commission, held at its office at the Capitol, in the city of Albany, N. Y., on the ..... day of ....., 189.., by a resolution duly adopted and entered of record in the minutes of their proceedings, the party of the first part has agreed to let, and by these presents does grant, demise and let to the said part.. of the second part, and the said part... of the second part ha... agreed to take, and hereby do... take, from the said party of the first part, all the right, title and interest which the People of the State of New York now have, of, in and to the following premises, which are situated within the limits of the Adirondack park, as defined by section 9 of said act, and are briefly described as follows, to wit:

For the term of ....., to commence on the ..... day of ....., 189.., and to end on the ..... day of ....., 189...

And the said part... of the second part hereby covenant... and agree... to pay unto the said party of the first part the yearly rent

or sum of ....., payable annually in advance, at the office of the Forest Commission, at the Capitol, in the city of Albany, N. Y.

The first payment to be made on the day of the execution and delivery of these presents, and each subsequent payment annually each year thereafter. The receipt of such payments to be indorsed on a duplicate copy of this agreement, which shall be retained on file in the office of the said Forest Commission.

And the said part.. of the second part further covenant.. and agree.. that .... will not assign this lease, nor let or sublet the whole, or any part of the said premises, nor make any alteration therein without the written consent of the party of the first part; and that ..... will not use or occupy or suffer to be used or occupied, the said premises, or any part thereof, for the purpose of keeping any store, market, shop, inn, tavern, hotel, saloon, dance or gambling-house of any character whatsoever. And that .... will not sell or give away, or suffer to be sold or given away, any strong or spirituous liquors, wines, ale, or beer upon the premises herein demised, or suffer the same to become disorderly in any manner, upon penalty of immediate forfeiture of this lease and damages.

This indenture is made upon the express condition, and it is agreed, that the part.. of the second part will not cut, or suffer to be cut, or remove any timber or trees now standing upon the said premises, except dead and decaying or worthless trees and underbrush, or mine for or remove any minerals, or quarry or remove any stone from said lands, or commit or suffer any waste or trespass thereon.

That .... will adopt and use all necessary means and precaution for the prevention of fires, and for the protection of the forest upon the demised premises; and for any fire or fires originating thereon, that .... will pay to the person or persons suffering such injury all damages arising therefrom; that .... will observe all ordinances and regulations of the Forest Commission, heretofore

prescribed or hereafter to be prescribed, as the same may be published from time to time.

No exclusive hunting or fishing privileges is granted by this lease; and a right of way over and across the demised premises is hereby reserved to the public to pass and repass at all reasonable and proper times, and in a lawful manner, without unnecessary interference or encroachment on the rights of the lessee.

It is hereby further expressly agreed and covenanted that no liability shall attach to the party of the first part for any failure of title to the said premises or any part thereof before the expiration of said term, either through redemption or cancellation, or from any other cause; and that said part.. of the second part will forfeit whatever sum of money .... may have paid on account of this lease for said unexpired term.

Said part... of the second part shall not be entitled to any compensation for any improvements made or buildings erected on said premises during the time ..... may have been in possession, and said improvements or buildings shall not be removed if the same are or have been so attached to the freehold as to become a parcel thereof.

And the said part... of the second part agree... to quit and surrender the premises at the expiration of the said term, in as good state and condition as they were in at the commencement of the term, reasonable use and wear thereof and damages by the elements excepted.

And the said part... of the second part hereby further covenant... that if any default be made in the payment of the said rent, or any part thereof, at the times above specified, or if default be made in the performance of any of the covenants or agreements herein contained, the said hiring and the relation of landlord and tenant, at the option of the said party of the first part shall wholly cease and determine, and the said party of the first part shall and may re-enter the said premises and remove all persons therefrom; and the said party of the second part hereby

expressly waive... the service of any notice in writing of intention to re-enter as provided for by any law or statute."

In witness whereof the Forest Commission of the State of New York, have hereunto, by the secretary of said Commission, signed and sealed this indenture, and the part... of the second part ha.. affixed .... signature and seal .... the day and year first above written.

The Forest Commission of the State of New York by

.....

*Secretary.*

[L. S.]

Approved:

S. W. Rosendale,
*Attorney-General.*

STATE OF NEW YORK, } *ss.:*
County of ..... }

On this ..... day of ....., in the year one thousand eight hundred and ninety ....., before me, the subscriber personally came ..... to me well known, and known to me to be the person.. described in and who executed the foregoing instrument and ..... acknowledged that ..... executed the same.

.....

.....

A large number of applications for Adirondack leases were made under the law referred to. They were as follows:

| Applicant. | Location. |
|---|---|
| Mrs. Ann H. Manierre ..... | Lower Saranac lake. |
| Edw. and Benj. Manierre ..... | Lower Saranac lake. |
| John Harding ..... | Lower Saranac lake. |
| E. M. Eaton ..... | Lower Saranac lake. |

| Applicant. | Location. |
|---|---|
| Andrew Miller | Lower Saranac lake. |
| Stephen B. Lawrence | Lower Saranac lake. |
| Sara B. Miles | Lower Saranac lake. |
| Alfred B. Chapman | Lower Saranac lake. |
| William P. Mason | Lower Saranac lake. |
| Francis J. P. Tommins | Lower Saranac lake. |
| Theodore Melvin | Lower Saranac lake. |
| Geo. S. Bartlett | Lower Saranac lake. |
| F. A. Streeter | Lower Saranac lake. |
| F. A. Isham | Lower Saranac lake. |
| Frank E. Kendall | Lower Saranac lake. |
| Hiram Benham | Lower Saranac lake. |
| Mrs. L. Tennis Hervi | Lower Saranac lake. |
| Otto T. Schmidt | Lower Saranac lake. |
| Pauline A. Shaw | Middle Saranac lake. |
| John Boyd Thacher | Raquette lake. |
| George H. Thacher | Raquette lake. |
| Donald McNaughton | Raquette lake. |
| Joseph W. Taylor | Raquette lake. |
| J. P. Henderson | Raquette lake. |
| Gen. M. D. Hardin | Raquette lake. |
| A. S. Gerster | Raquette lake. |
| Frederick Benedict | Raquette lake. |
| Edward D. Mix | Raquette lake. |
| Charles H. Bennett | Eighth lake. |
| Bradford W. Sherwood | Raquette lake. |
| Hon. Edward P. Hagan | Raquette lake. |
| Michael J. Langan | Raquette lake. |
| Charles F. Murphy | Raquette lake. |
| Frank A. O'Donnell | Raquette lake. |
| John J. McGrath | Raquette lake. |
| Thomas Cunningham | Raquette lake. |
| William P. Meehan | Raquette lake. |
| M. Tracy Walworth | Raquette lake. |
| Milton W. Stickney | Raquette lake. |

The prices fixed by the commission for the various sites applied for run from $50 to $250 per year for five-acre leases. But the act establishing the Adirondack park, in which these leases are authorized, did not become a law until May 20, 1892, after which the applications were not received in time to execute any leases for that season. Up to the present time, no leases whatsoever, have been signed by this commission.

# FOREST FIRES.

During the past season the forest fires have been so few and slight, as compared with those of former years, that the Commission deems it a matter of congratulation. The official reports, made from every town in the State, show a large decrease, even from the reports of 1891, in which year there was a marked falling off in the number and extent of woodland fires. This further decrease, amounting comparatively to immunity, is due to the vigilance and efficiency of the town Firewardens appointed by the Forest Commission, and to the supervisors in the towns outside the Preserve counties. True, the season was a wet one; but, as numerous and destructive forest fires raged throughout each adjoining State, in Vermont, Massachusetts, Connecticut, New Jersey and Pennsylvania, it is fair to credit our escape from fire to the Firewardens and Supervisors who, with their posse of assistants, were so promptly on hand at the first fire alarm. The wet season, which prevailed in adjoining States as well as in ours, does not appear to have protected their woodlands from this source of destruction.

In examining the reports of the Firewardens, it will be seen that, as usual, the most prolific cause of fire was the burning of fallows or attempts at clearing land for farming purposes. For this reason, mostly, all the fires were on the borders of the forest, and none in the interior.

The forest fires throughout the entire State of New York, both within and without the Forest Preserve, during the year 1892, have been as follows:

## ADIRONDACK PRESERVE.

### Essex County.

Patrick Davey, Firewarden for the town of Wilmington, reports:

There was a fire on Lot 78, Jay Tract, which burned over four acres. It was started for the purpose of clearing land. Also, one

on Lot 33, Mallory's grant, for the purpose of clearing, which burned over about three acres.

Fire on Lot 29, Mallory's grant, for the purpose of clearing, burned over six acres.

Fire on Patent land, for the purpose of clearing, burnt over six acres.

*Fire on White Mountain tract, burning over six acres, doing no damage to the forest.

There have been no forest fires in Wilmington to do any damage in the forest this season.

L. S. Parkhurst, Firewarden for the town of North Elba, reports:

On May eighteenth a fire broke out from a fallow being burned on Lot 219, owned by G. G. White, which ran over portions of four lots: in Lot 199, forty acres; Lot 198, forty acres; Lot 178, sixty acres; Lot 157, twenty acres; making a total of 160 acres.

This tract had very little timber on. The day was very favorable for burning the fallow, but the next morning the wind came very strong from the opposite direction and kindled it anew.

Wallace Goodspeed, Firewarden for the town of St. Armand, reports:

A forest fire started on Lot 63, owned by C. L. Thehah, which burnt over about 100 acres of land owned by several parties. It also burnt about sixty rods of rail fence, and ten or twelve cords of stove wood, and about thirty rods of fence owned by Seth Wardner, Jr. The fence was worth from fifty to seventy-five cents per rod, and the wood about $1.50 per cord. There were about ten or fifteen acres of meadow burnt over, but I do not think it will damage that much. The rest was old slash, mostly covered by pin-cherry, mullein, and such brush; so the damage was light. There was a heavy rain that night, which put out the fire. All I could find out about the origin of the fire was that Seth Wardner says that he was at work near the place, and saw C. D. Thehah go down where the fire started, and in a few minutes a smoke arose;

* These were fallow fires.

and that there was no smoke to be seen until then. Mr. Thehah says some one set a fire there some days before, which burnt over about ten acres; that it must have started before, as he set no fire, nor had any occasion to set any.

Almeron Hale, Firewarden of the town of Keene, reports:

We had a fire on Lot 15, Essex Tract, Richard's survey. It started from a man's door-yard, and burned over about twenty-five acres of Lot 15. Damage, two dollars per acre. It cost to extinguish the fire, ten dollars, besides the labor volunteered.

Frank C. Parker, Forester, wrote from Keene valley, April twenty-second:

A forest fire originated from some brush burned on the premises of Enos Estes, of Keene Centre, and extended to and on Lots 14 and 15, Richard's survey, Old Military Tract, Townships 1 and 2.

The fire ran from Estes' place through a meadow, running through the dry grass and catching in some second growth timber, burning the leaves and dry twigs. About seventy-five acres were burned over.

I made an estimate that it burned over about fifty acres, on Lot 15, State land. The fire destroyed about twenty acres of small second-growth poplar timber. This timber is of about ten years' growth. In the heavy timber it did very little damage, as it only burned over the top layer of leaves. I sent a messenger for the Firewarden as soon as I found out about the fire, and had a force of men on the ground as quickly as possible. Mr. Almeron Hale, the town Firewarden, was on the ground promptly, and took charge. I worked with them until we had the fire under control.

When I was in North Elba last week my attention was called to quite an extensive forest fire in the vicinity of Lake Placid, and along the road toward Saranac Lake. This fire extended over several hundred acres, and although where it burned over there was not any very valuable timber (for fire had run there at some previous time) still the second growth was coming up, and if the fire had not run over it, in a few years the ground would have been pretty well covered again. I talked with the

Firewarden at North Elba, who seemed to know very little about it. I requested him to look it over, and report.

This fallow burning in a dry time will destroy more timber than the lumbering does. Even if it only runs in the leaves it will kill the young saplings, and leave the ground covered with dry sticks and twigs, making the place well adapted for other fires.

## Franklin County.

George D. Knowles, Firewarden for the town of Brighton, reports:

On June fourteenth a fire started on Lot 66 from sparks from a burning house on that lot, occupied by A. Doty. It burned across Lots 67 and 68, mostly an old fire slash. It ran over two or three hundred acres. Not much damage was done.

June fifteenth a fire started on Lot 76. Its origin is unknown. June sixteenth, on Lot 64, a fire started near A. A. Smith's hotel. We used grub hoes, axes, and water, when obtainable, in extinguishing it. A thunder storm finally put an end to the fires for the season. The fires of the fifteenth and sixteenth caused some damage, but it was all on lands belonging to residents of the town of Brighton.

## Fulton County.

H. C. Robinson, Firewarden for the town of Mayfield, reports:

A small fire started on private land in this town, on the afternoon of October twenty-second, caused by bee hunters burning comb. It burnt over about twenty-five acres of land, damaging only the leaves and underbrush. It was extinguished by the rain.

## Hamilton County.

Wm. B. Meveigh, Firewarden for the town of Lake Pleasant, reports:

The forest fires in this town during the past season have been as follows:

April first, on land owned by Ryan Page, burning over about four acres. The fire started in some brush piles; no damage was done. I carried water, and used whips of brush to extinguish it.

April twenty-first, on land of Peter Weaver, about three acres were burned over, but no damage was done.

On resident property of Charles Fisher; about three acres were burned.

April twenty-sixth, on resident property of Oren Deming; about one acre burned over; no damage done.

June fourteenth, on property of Isaiah Perkins; one acre; no damage was done.

June seventeenth, property of William Page; two acres were burned over; no damage was done.

November ninth, on property of Wellington Wood; no damage done.

All these fires were closely watched, and consequently no timber was injured. The general inclination of the people here is to obey the law in regard to starting fires for burning fallows.

Tyler M. Medwin, Firewarden for the town of Indian Lake, reports:

Only one small fire occurred in this town, June fifteenth. It was started by a man burning fallow, who did not give the required notice. He set it in the morning, and went away and left it. During his absence the fire spread; but I took it in time, and with my men, who were working near, extinguished it. I charged the man who started it with the expenses, amounting to six dollars. No damage of any account was done.

## St. Lawrence County.

R. T. Kinnie, Firewarden for the town of Hermon, reports:

No forest or woodland fire has occurred in this town since the first of this year. The old burnt district in the south part of the town near Trout and Chub lakes is all growing up with a fine lot of young trees of the various kinds natural to this locality, as are also the lumber slashes and fallows. The large area of flat rocks in this territory that the fire left bare have begun to again cover and support numerous small trees, all bearing evidences of the return of the destroyed forests and timber land.

A fire started in this town on May nineteenth last, and burned over 100 acres of second growth timber, valued $100. It was caused by sparks from an engine on the Carthage and Adirondack railroad. This railroad company does not observe the law. Much damage would be prevented if they were made to observe it. Most of the forest fires in this town start from railroad locomotives.

## Saratoga County.

R. E. Cronkhite, Firewarden for the town of Greenfield, reports:

I have posted the cards you sent me for the protection of lands from fire. But one fire occurred in this town the past year, which was in the early spring. It began on lands belonging to Thomas West, where it was started to burn land for potatoes. It ran to the land of H. G. Ormsbee and Henry Rowland, where several acres of timber were destroyed.

Anson J. Larkin, Firewarden for the town of Ballston, reports:

On April 8, 1892, there was a fire in the woods about one mile north of the South Ballston depot, along the Delaware and Hudson River railroad on the lands of S. W. Buel, on the east side of said railroad. About three acres were burned over. The fire extended about one-quarter of a mile. I went as soon as notified, and assisted in extinguishing it.

Another fire occurred south of the same depot, a short distance. It was started by the passenger engine, going south, leaving the station at 10.38. This fire ran over the dry grass, and was making its way toward the handle factory, and saw-mill of William H. Valentine; also the barn of John F. Hanks.

The factory whistle was blown and a large crowd of men and boys responded to the call with pails. The fire was kept a good distance from the factory, but it was with difficulty and hard work that the barn was saved.

On April 19, 1892, I observed a fire in the woods of S. W. Buel, and immediately repaired to the scene. F. R. Buel, Howard Van Epps, Jesse Lupes, and one railroad trackman assisted me. We worked with green hemlock brushes, pails of water, shovels,

and a rake to pull the leaves back and clear a space. After a hard fight we conquered. About three acres of timber land was burned over.

April twentieth, a fire was discovered in the woods of James P. Smith. I employed E. K. Wheeler to assist me and we had a hot, hard fight. We used green hemlock brush, and pails of water, and had the fire out at dark. About one acre was burned of timber land.

April fourteenth, a fire was reported by Charles A. Markham. I employed James Maybee. We went there and found the fire had been looked after by those whose buildings were in danger. All of the fires were near the Delaware and Hudson Canal Company railroad, and no doubt had been set by passing trains on the Saratoga and Schenectady division. Some smaller fires I have not mentioned.

## Warren County.

Benjamin C. Brown, Firewarden for the town of Chester, reports:

On April twenty-seventh, notice was served on me that there was a fire burning on what is known as Oak Ridge in the northwest part of the town. Being notified of the extent of the fire, I ordered out seven men and with them I immediately went to the place of the fire and begun to dig a trench around it; also to backfire where it was necessary, and in that way we succeeded in getting the fire under control. The next night rain came and extinguished the fire. The number of acres burned over was about thirty. The timber destroyed was of second growth, hard wood, and poplar. Damage, about $1,000.

July thirtieth I received word that a fire was raging on land owned by private parties on the west of Friend's Lake. I went there and, with the help of Mr. James Parker, succeeded in getting the fire under control till rain came and extinguished it. About two acres of pine timber were burned over. It would be hard to estimate the damage, as most of it was on the ground and does not show at the present time. I have been called to oversee the burning of a number of fallows, from which no damage resulted.

Hugh R. Richards, Firewarden for the town of Johnsburgh, reports:

JOHNSBURGH, *April* 17, 1892.

I was called to a fire yesterday. It was supposed to have been started by two men who were seen on the spot about ten minutes before the fire. It was set in a fence. It burnt the fence and passed over the meadow and orchard, entirely destroying the orchard which contained about 300 trees. The fire is under control this morning. It is very dry in the woods.

John West, Firewarden, for the town of Horicon, reports:

I think this town has been greatly benefited for the last few years by having posters placed where the people are reminded of the law in regard to fires. It makes them more careful. Before the law was made plain, relative to the protection of forest lands, they set fire to rubbish or fallows, and let it go where it pleased, burning timber, and injuring the land very much. We have had no forest fires in this town during the past year.

---

## CATSKILL PRESERVE.

### Greene County.

H. S. Eckler, Forester, reports:

On April first, a fire started on land owned by DeWitt Vanorden, and burned over about three acres of partly cleared land; damage fifty dollars. On the same day a fire started on Theo. Cole's farm, which ran onto land owned by Miss Gaylor. Before it could be extinguished, it burned over about half an acre of fine timber; damage sixty dollars.

On April fifteenth, sparks from an engine on the West Shore railroad, started a fire on land owned by William Martin, which burnt a lot of fence and a fine grape arbor; damage fifty dollars.

On the same day, a fire started on land owned by Miss Tremper; all cleared land. Also, on land owned by John Post, which burned rapidly, and we had hard work to save his barns.

The railroad company is careless about sparks from engines. The locomotives had no spark protectors, and the sparks flew in a perfect stream. The wind was blowing and the fire spread rapidly. I would suggest that the company be notified to have engines made a little more safe. I saw no track men. I have posted the cards you sent me, and good has resulted from them. People now come from long distances to get permission to burn a fallow.

## Sullivan County.

William Darling, Firewarden for the town of Tusten, reports:

On or about the fifteenth of May last, a fire occurred on the Delaware River Mountain in this town, about two and one-half miles below Narrowsburgh. It started near the railroad track, and was back-fired from the fields and roads on the opposite side of the mountain. It burned over perhaps 300 or 400 acres, but no material damage was done. The mountain land is valuable only for flag stone. I was not notified in time to stop it.

About the same time a fire occurred on Mr. Touissaint's land in this town. The fire was started near the Beaver brook by some men who were fishing for trout; it was back-fired from the main road. The fire burned over about 100 acres. Only the small bush was burned, and the damage was not very material.

Another fire occurred upon Mr. Touissaint's land in this town on the twentieth and twenty-first of June last. I went to the fire in the fore part of the evening of the twentieth, and with water and brush we whipped the fire out that night. About 10 o'clock the next day the wind began blowing very hard, and the fire started up again. It was put out the same as before by whipping the fire with a bough or brush. This fire burned over about forty acres of land. Nobody seems to know how it started. The leaves and small bushes only were burned, as the trees were in full leaf. The damage was only slight. The above were all of the forest fires which have occurred in this town for the year 1892. I believe that back-fires are generally set too far remote from the main fire, thereby causing more land to be burned over than is absolutely necessary to stop the forest fires.

William Rudelick, Firewarden for the town of Lumberland, reports:

We had two small fires in Glen Spey during the past year, which occurred October eleventh and twenty-second, resulting from burning fallows for clearing land. No damage was done.

W. S. Coddington, Firewarden for the town of Thompson, reports:

No forest or woodland fires have occurred in this part of the town since the first of the year. The young timber is growing very rapidly. I have kept very close watch and have several good, honest men to watch the old fire-bugs. Therefore we have had a clear season as regards fires. I am highly pleased with the result. I have been called on to burn several fallows and all with good success, keeping the fires under control.

Morris Downie, Firewarden for the town of Fallsburgh, reports:

On April twenty-sixth, sparks from an engine on the New York, Ontario, and Western railroad set fire on lands belonging to G. E. Tice and E. Stoddard, which ran on their meadows, and some timber land of R. Henyen and Dr. Huber. I ordered out three men, who, with the assistance of the section men, succeeded in extinguishing the fire without much damage.

On April twentieth a fire broke out on land occupied by J. Sheley, and ran over about ten acres of meadow land; no damage was done. Fire extinguished by whipping with brush and use of water.

We have had several small fires caused by sparks from engines on the New York, Ontario, and Western railroad, but they did no damage. I have posted all the notices sent me. I do not think the pay is enough, as the men think it hardly sufficient for working all day at a fire.

Newcomb Mapes, Firewarden for the town of Bethel, reports:

We have had only one forest fire in this town during the past year, and that was at Black Lake, on April nineteenth. It burned

over about 100 acres of ground covered with a young growth of maple, birch, poplar, etc. The amount of damage was very light, although it retarded the growth of some and killed a portion of the young trees. The land is owned by private parties. The fire was started by Mr. Ouderkirk, for the purpose of clearing the land. It was extinguished with the aid of about a dozen men, including Mr. Ouderkirk and myself, who fought the fire with hemlock boughs and water. We plowed down an old road leading to a brook ahead of the fire, and then back-fired from the furrows and the brook. We soon had it under control. Had it crossed the brook it would, no doubt, have done serious damage to some adjoining farm property. We guarded the premises till all danger was over.

I find since the establishment of the Forest Commission, and the posting of the notices and the circulation of your pamphlets containing the rules and laws regarding fires, that we have very few fires, as I have taken great pains to post in conspicuous places the notices, and have given out the pamphlets all over the town.

M. A. Hoffman, Firewarden for the town of Freemont, reports:

Four different fallows have been burned, amounting to about twenty-two acres. No damage done to my knowledge.

## Ulster County.

Patrick Johnson, Firewarden for the town of Shandaken, reports:

I was warned out to a fire on the eighteenth of August. Mr. Burns was in attendance. I needed no assistance. It was a fallow cut for the fall crop. It burned over about four acres in good shape, and did not leave the cleared lot. It is located in Peck Hollow.

On August twentieth I was warned out by John O. Kelley, adjoining same farm of Burns, and there was about the same result. About four acres of fallow were burned over with good results. There has not been any forest or woodland fires in this town since I have been Firewarden.

C. H. Sheley, Firewarden for the town of Wawarsing, reports:

One fire on the side of the mountain, about two miles from Ellenville, on October twenty-sixth, burnt over about thirty acres. It started in the afternoon and was soon extinguished. Nothing grows on the side of the mountain except a few shrubs and huckleberry bushes.

George W. Lewis, Firewarden for the town of Olive, reports:

I am having extra trouble this summer to keep our posters up. The worst place is where the fire occurred two years ago. Twice I have posted them and they have been torn off. The fine of five dollars is not sufficient to deter them from destroying the posters. If you will authorize me to offer a reward of ten or fifteen dollars I think I can get the person who destroyed the posters. From forty to sixty berry pickers and a large number of tourists from all over the country pass my house every day on their way to the woods, and an arrest and successful prosecution would be a very great benefit.

On December 16, 1892, Mr. Lewis further reported:

A fire was started on Lewis Mountain by a bee hunter, and was extinguished without doing much damage.

Since I built my station on the mountain a great change has come over the minds of the people in this district in regard to the usefulness of the Forest Commission and the necessity of a Firewarden, who should be vigilant and on guard to prevent fires from being set. Formerly fires were of daily occurrence at certain seasons, started by tourists and malicious persons to see how the forest would look while all aflame.

I will here mention that I have in my charge the most dangerous post in the Catskill region. At certain seasons from seventy-five to a hundred people a day pass my station, bound up to the top of High Point, for the view, and many of them were perfectly reckless as to what they destroyed, so they had the pleasure of seeing a fire in the mountains. But I have succeeded in stopping

all that, and by putting up our notices and by personal warning have succeeded in having the people respect the rules of the Commission. But this has only been gained by constant vigilance for some years, and if that vigilance was to cease and the mountains left unguarded, what is now a scene of grandeur and beauty would be reduced to a barren waste of blackened sticks of burned timber.

---

## COUNTIES OUTSIDE THE FOREST PRESERVE.

### Allegany County.

F. B. Sibley, Supervisor of the town of Cuba, reports:

This town contains a part of the Oil Spring Indian Reservation, which sometimes burns over on account of the lawlessness and carelessness of sportsmen. But I am pleased to report that no fires occurred the past season.

### Cattaraugus County.

W. L. Reeves, Supervisor of the town of South Valley, reports:

About the first of last May a fire broke out in the forest on Lot 23, and burned over about fifteen acres, doing no damage except the burning of some small timber of little value. The fire is supposed to have been set by Indians. No other forest fire has occurred in this town since the first of the year.

### Onondaga County.

A. C. Palmer, Supervisor of the town of Manlius, reports:

There have been no fires of any extent in this town, and not one acre of forest land has been destroyed. We have had several small fires, burning log heaps in swamps or marsh land; but they are usually extinguished by digging a trench around them to the bottom of the muck soil.

## Columbia County.

Almon Miller, Supervisor of the town of Claverack, reports:

The forest fires in our town do but little damage, as the forests are so small. Still, we had a fire in my woods in the month of October, caused, as I was told, by some boys hunting. It spread over about eighteen or twenty acres, but did but little damage, hardly worth mentioning. I know of no other, unless this spread a little over the line on adjoining neighbors.

## Orange County.

Jesse Durland, Supervisor of the town of Warwick, reports:

One fire occurred the last of October and first of November, 1892. It burned over an area of woodland estimated to be about 500 acres, situated on the mountains known as the Bellvale and Warwick mountains. The origin of the fire is unknown, so far as I can learn, but is supposed to be to be from sportsmen or hunters.

The damage is variously estimated at not to exceed 500 dollars, and consists in hoop poles or small growth.

George A. Durland, Supervisor of the town of Greeneville, reports:

"We had a heavy fire in this town last spring and one in the fall. The western side of our town is traversed by the New York, Lake Erie and Western railroad, and sparks from engines cause these fires periodically. No great damage results, as the lands are burned over so frequently. The only efforts made to subdue them are made by the farmers who must keep the fire off from their farms. The only prevention would be to back-fire along the railroad track, and the responsibility of back-firing in this case would hardly be risked by our people.

J. Spencer Ford, Supervisor of the town of Tuxedo, reports:

"Probably 300 acres have been burned over during the fall of ninety-two. Cause unknown. It was almost impossible to stop

fire on account of the dry weather we had, just at that time. No damage was done except to some small growing timber. We found the best means of checking the fire was to follow the line of the blaze and scrape the burning leaves on to the burned ground. In case of high winds we had to back-fire.

### Steuben County.

H. B. Willard, Supervisor of the town of Campbell, reports:

"The only fires of any account were small brush fires. One, about one and one-half miles from Campbell village, burned over fifty or 100 acres and destroyed a few rods of fence; otherwise the damage was slight; no other fire occurred.

### Rockland County.

T. H. Ward, Supervison for the town of Ramapo, reports:

In the Ramapo Mountains on the east side of the Ramapo River, about October twenty-third, twenty-fourth and twenty-fifth, it is estimated that there were 1,000 acres burned over, which were mostly young timber. It was very dry at the time, and very windy. The fire probably was started by hunters. The loss would probably be five or six dollars an acre. The people turned out and worked night and day to subdue the fire. Some used rakes to keep the fire from spreading, while others would go ahead and back-fire. There was no cord wood, logs, or bark destroyed. But it hurt the young timber to a large extent in some places, it being such a very dry fall.

### Suffolk County.

B. F. Curtis, Supervisor for the town of Smithtown, reports:

May twelfth, 500 acres were burned. A little later in the season another fire occurred, burning over 200 acres. About the first of June a fire broke out in the western end of the town which swept nearly across the town easterly, and burned over about 1,500 acres. There were one or two other small fires, but no

record of them has been kept. The damage amounted to about two dollars per acre. The origin of the fire is unknown to me. In order to get a complete report another year, I would advise sending a blank to each Supervisor shortly after the election in April.

George F. Haman, Supervisor of the town of Riverhead, reports:

A forest fire occurred near the village of Wading River, on April twentieth. One thousand acres were burned over, and $2,000 of timber destroyed. Origin of fire unknown. We worked on the wings to narrow it up, and fired in* to head it off.

James H. Pierson, Supervisor for the town of Southampton, reports:

There have been from twelve to fifteen small forest fires in the town of Southampton during the past year; all or nearly all started on the line of the Long Island railroad. Probably from sparks from the engines. The fires were mostly in the summer, the largest number in the month of June. The damage was small, perhaps not over $200, owing to the fact that the forest along the line of the railroad has been burned over so often that the wood now growing is of little value, and because the frequent burning of the leaves and undergrowth the fires that now start are quickly subdued.

The means used to subdue them were starting back-fires to leeward along roads where possible, and throwing sand or earth on the edge of the fire where it was not too large.

## Summary.

In accordance with the law requiring that a "consolidated summary of these returns by counties shall be included in the annual report of the Forest Commission," we submit here the usual tabulated statement of the forest fires which have occurred throughout the State during the year 1892. This statement is

* "Fired in" is another phrase for back-firing.

made up from the reports of the Firewardens and Supervisors, every one of whom, over 600 in all, sent in a written statement, those havnig no fires to report making a statement to that effect:

Adirondack Counties.

| Date. | | COUNTY. | Number of acres. | Damage. | Cause. |
|---|---|---|---|---|---|
| 1892. | | | | | |
| April | 22 | Essex | 75 | $100 | Clearing land. |
| May | 18 | " | 15 | Slight | " |
| May | 21 | " | 100 | $100 | " |
| May | 24 | " | 15 | Slight | " |
| June | 14 | Franklin | 100 | " | Burning house. |
| June | 15 | " | 20 | $40 | Unknown. |
| October | 22 | Fulton | 20 | Slight | Bee hunters. |
| April | 1 | Hamilton | 4 | None | Clearing land. |
| April | 21 | " | 6 | " | " |
| April | 26 | " | 1 | " | " |
| June | 14 | " | 1 | " | " |
| June | 15 | " | 2 | " | " |
| June | 17 | " | 2 | " | " |
| November | 9 | " | 1 | " | " |
| May | 19 | St. Lawrence | 100 | $100 | Railroad locomotive. |
| April | 2 | Saratoga | 7 | 20 | Clearing land. |
| April | 8 | " | 3 | Slight | Railroad locomotive. |
| April | 19 | " | 3 | " | " |
| April | 20 | " | 1 | " | " |
| April | 16 | Warren | 20 | $50 | Incendiary. |
| April | 27 | " | 30 | 100 | Clearing land. |
| July | 30 | " | 2 | Slight | " |

Catskill Counties.

| | | | | | |
|---|---|---|---|---|---|
| April | 1 | Greene | 4 | $50 | Clearing land. |
| April | 15 | " | 2 | Slight | Railroad locomotive. |
| April | 19 | Sullivan | 100 | " | Clearing land. |
| April | 20 | " | 10 | " | Railroad locomotive. |
| April | 26 | " | 6 | " | " |
| May | 15 | " | 200 | " | " |
| May | 16 | " | 100 | " | Fishermen. |
| June | 21 | " | 40 | " | Unknown. |
| October | 11 | " | 5 | " | Clearing land. |
| October | 22 | " | 5 | " | " |
| October | 26 | Ulster | 30 | " | Not stated. |

In Other Counties.

| | | | | | |
|---|---|---|---|---|---|
| May | 1 | Cattaraugus | 15 | Slight | Campers. |
| October | 3 | Columbia | 18 | " | Hunters. |
| May | 3 | Orange | 20 | $40 | Railroad locomotive. |
| October | 10 | " | 20 | 50 | " |
| November | 1 | Rockland | 500 | 500 | Hunters. |
| November | — | Orange | 300 | 200 | Unknown. |
| April | 20 | Suffolk | 1,000 | ? 2,000 | " |
| May | 12 | " | 500 | 500 | " |
| June | 1 | " | ? 1,500 | 500 | " |
| October | 23 | Rockland | 1,000 | ? 3,000 | Hunters. |

From the foregoing tabulation it appears that there were forty-three fires reported and that the causes were:

| | |
|---|---|
| From clearing land | 18 |
| From railroad locomotives | 10 |
| From hunters | 3 |
| From fishermen | 1 |
| From campers | 1 |
| From bee hunters | 1 |
| From incendiaries | 1 |
| From a burning house | 1 |
| From causes not stated | 1 |
| From causes unknown | 6 |
| | 43 |

# FINANCIAL STATEMENT.

The legislative appropriation for this Department, for the fiscal year ending September 30, 1892, was $30,000. Of this sum, $18,500 was specially designated for salaries, and $11,500 for "traveling expenses of the Commissioners and officials, for printing and office expenses, for fees of attorneys, counsel and witnesses, and for the prevention of fire." In addition to this sum of $30,000, there was an unexpended balance from the appropriation of the previous year of $2,800.43 on salary account, and $835.27 on expense account. There was also a sum of $2,269.80 standing to the credit of the Catskill Deer Park, the care and maintenance of which, by chapter 562, Laws of 1887, devolves on this Department.

The total amount thus available for the work of the Commission, from October 1, 1891, to October 1, 1892, was $35,905.50, of which amount the sum of $33,695.22 was expended. This includes $938.53 of expenditures made on account of the Deer Park. Of the latter sum, $575.21 was paid for the purchase or care of the deer; the balance is included in the traveling expenses of the Commissioner, specially intrusted with the general supervision and management of this branch of the Department work.

The different items of expenditures for the past year are shown in the following statement:

**Forest Commission, State of New York.**

*Trial Balance, September* 30, 1892.

| Receipts. | Dr. | Cr. |
|---|---|---|

| Balance unexpended—Deer Park .. | 1,331 27 | |
| | $35,905 50 | $35,905 50 |

There was, also, an expenditure of $1,139.23 for expenses incurred by the officers and Foresters in the examination of lands preliminary to sales or purchases. These expenses were not chargeable to the regular annual appropriation made for this Department, but were paid out of the fund established for the

purchase of land, in accordance with a provision of chapter 707, Laws of 1892, which enacts that "such expenses as may be necessarily incurred by the Forest Commission in the preliminary examination of lands purchased or sold under the authority of this act, shall be paid from the appropriations made from time to time for the purpose of such purchases, or from the fund established from the proceeds of the sale of lands."

The Supply Bill of last year contained this item: "For the Forest Commission, for defraying the expense of publishing a map of the Adirondack Wilderness, showing the surveyed allotment of that entire region, one thousand nine hundred and fifty dollars, or so much thereof as may be necessary." Out of this special fund the Commission paid Messrs. Julius Bien & Co., of New York, $1,495 for engraving the map and printing 500 copies. The remainder of this fund ($455) will be expended in the completion and correction of the map, and the necessary changes in the stone. The engraving of the stone having been completed, editions of the map can be issued from time to time at comparatively little expense.

As previously stated, the Commission collected $2,080.32 during the year 1892, for trespasses on the Preserve. Since the organization of the Commission, it has collected from this source in all, $22,368.98. But this money was turned over immediately to the State Treasurer, and, thence, to the general fund, none of it being placed to the credit of this Department, or made available for its work; nor has any part of it ever been appropriated by the Legislature for the purchase of forest lands.

## Organization.

The law establishing the Department provides for three commissioners who "shall serve without compensation, except that there shall be paid them their reasonable expenses incurred in the performance of their official duties." The organization of the Department, at present, is as follows:

| NAME. | Position. | Original appointment. |
|---|---|---|
| Townsend Cox | Commissioner | November 1, 1885 |
| Theo. B. Basselin | " | November 1, 1885 |
| Dudley Farlin | " | May 23, 1891 |
| C. O. McCreedy | Secretary | June 8, 1891 |
| Wallace T. Brooks | Assistant secretary | December 1, 1892 |
| J. J. Fourqurean | Stenographer | July 8, 1888 |
| Edward H. Rickard | Messenger | September 1, 1891 |
| William F. Fox | Superintendent | November 1, 1885 |
| Philip L. Haberstro | Assistant superintendent. | June 8, 1891 |
| John H. Burke | Inspector | March 12, 1889 |
| William Doyle | " | June 8, 1891 |
| Frank C. Parker | Forester | June 10, 1886 |
| Scudder Todd | " | February 16, 1888 |
| Thomas Powers | " | March 1, 1889 |
| Joseph H. Riseley | " | March 15, 1890 |
| William Humes | " | June 8, 1891 |
| E. A. Buell | " | June 26, 1891 |
| Fred. G. Billingham | " | June 26, 1891 |
| James M. Somerville | " | August 11, 1891 |
| B. J. Mullen | " | August 11, 1891 |
| H. S. Eckler | " | April 5, 1892 |
| Henry Bradley | " | October 1, 1892 |
| Luzerne A. Todd | " | November 30, 1892 |
| George D. Babcock | " | November 30, 1892 |
| George R. Jenks | " | November 30, 1892 |

## Firewardens.*

CLINTON COUNTY.

| TOWN. | Name of Firewarden. | Post-office address. |
|---|---|---|
| Altona | E. W. Trombley | Altona. |
| Ausable | Richard A. McCormick | Clintonville. |
| Beekmantown | Samuel Craig | Beekmantown. |
| Black Brook | W. W. Pierce | Black Brook. |

* The Firewardens are not salaried officials. They receive pay only for such time as they are on duty at a forest fire. They are appointed by the Forest Commission, but their services are a town charge. [See Appendix A, Forest Preserve Law, section 110.]

This list does not include the district Firewardens, of whom there are from one to five in each town, in addition to the Chief Firewarden.

Experience has shown that in the large and thickly wooded towns throughout the Adirondacks and Catskills a fire may attain a disastrous headway before word can be sent to the Chief Firewarden, whose house may be several miles distant, and who, alone, has the authority to order out and organize the posse necessary to successfully fight and extinguish fire.

The law provides for the division of the larger towns into districts of suitable size, in each of which a district Firewarden is appointed, who is vested with the same power and authority as the chief or town Firewarden. A map of the town, showing these districts, and bearing the names of the district Firewardens, may

be made and hung up in a conspicuous place, the expense of which map is a town charge.

The appointment of the district Firewardens is vested in the town Firewarden; and in case of a large fire it is the duty of the latter to hasten to the spot and assume charge personally. But the prompt extinguishment and management of minor fires, upon which the safety of the forests depends so largely, is intrusted to, and, in fact, can be attended to only by, the district Firewarden. During the past year the Firewardens in the larger towns have been urged to divide their towns into suitable districts, the divisions being made with reference to roads and mountain ranges, rather than to size, and good results have been obtained through this plan.

## World's Fair Exhibit.

This Department expects to make an exhibit at the World's Fair in Chicago, worthy of the prominent position occupied by our State in forestry matters. Last year the Superintendent planned an extensive exhibit of the resources and character of our forests, which we hope will represent our State creditably, and compare favorably with that of any other. He intrusted the details of the work to Mr. Romeyn B. Hough,* of Lowville, N. Y., whose scientific attainments and practical experience as a dendrologist insure a proper display of our trees and forest products. Mr. Frank C. Parker, whose long residence in the Adirondack region, as a guide and Forester, has given him a practical knowledge of the *habitat* of many rare species, was detailed to assist Mr. Hough in collecting and shipping the specimen tree-trunks of which there are 104 species indigenous to our State. The exhibit will include photographs of each species, the trees having been photographed twice, once when in full leaf and also when bare. For this purpose a party, properly equipped with a fine camera and necessary materials, was put in the field last summer. During the past winter the same localities were revisited, and the same trees, then bare of leaves, were again photographed, care being taken to set up the instrument in each case at the same point of view as in the summer.

---

* Author of Hough's "American Woods."

The display will include also three sawed specimens of each kind of native wood, cut so as to show respectively a radial, tangential, and transverse section. The botanical specimens from each tree will also be mounted and displayed, and in a manner which, we trust, will be satisfactory to the most critical scientist.

In addition to the specimens of tree trunks furnished to the exhibit proper, this Department forwarded nine specimens of Adirondack trees to be placed in the colonnade surrounding the Forestry Building, at the Chicago World's Fair. This colonnade contains 270 pillars, each of which is a trunk of a tree twenty-five feet long, from which the bark had not been removed. The State of New York, for its share in this colonnade, was called upon to furnish nine of these pillars or natural tree trunks. For this purpose, the Superintendent selected the following species:

| | |
|---|---|
| Balsam | *Abies balsamea.* |
| White spruce | *Abies alba.* |
| Hemlock | *Abies Canadensis.* |
| White birch | *Betula papyracea.* |
| Hard maple | *Acer saccharinum.* |
| Yellow birch | *Betula lutea.* |
| Red beech | *Fagus ferruginea.* |
| White ash | *Fraxinus Americana.* |
| Black cherry | *Prunus serotina.* |

The cutting and hauling of these trees was intrusted to Forester Bradley, who succeeded in getting them to the railroad without injury to the bark. Before loading them on the car, each tree was carefully wrapped with burlaps at all exposed points, the trees thus reaching their destination in good condition. As the species selected were intended to represent the merchantable trees of the State, some comment was made upon the fact that a white pine had not been included; but this species has long since ceased to be a representative tree in our State. It has disappeared almost entirely, and now forms but an insignificant part of our lumber product. At the same time, a fine specimen of the white pine (pinus Strobus) was shipped as a part of the main exhibit. This specimen was cut from a tree thirty-one

inches in diameter, which was sound and healthy, although its concentric rings of growth showed that it was 226 years old. It was donated by Mr. A. A. ("Paul") Smith, of St. Regis Lake, Franklin County, and was cut from a grove near his famous hostlery. There were other species which would have been included in the State contribution to this colonnade were it not that the representation from the New York forests was limited to nine trees.

## Adirondack Map.

We submit herewith a copy of the new Adirondack map, recently issued by the Forest Commission, and respectfully ask that an edition be printed equal in number to the printed edition of this report.

The map is fifty-seven by sixty-two inches, printed in seven colors. It shows not only the counties, towns, streams, lakes and mountains of the Adirondack region, but it shows the boundaries of the tracts, patents and townships, with the subdivision of the same into the individual, numbered lots throughout the entire territory. It is engraved on stone, and as that part of the work is finished and paid for, an edition can be printed without any further expense than the cost of paper and press work.

Hitherto there has been no map showing the surveyed allotment of the whole region. There were maps of certain tracts, or patents, county or town maps, diagrams of lots, but none containing the landed allotment of the entire forest of northern New York on one sheet. The need of such a map has been apparent for a long time to the Commission in carrying on its field work, and in the real estate transactions which of late have become an important item of the office business. It will, also, be an acceptable publication to the many persons who are carrying on business, or residing in the Adirondack Preserve and its vicinity.

All of which is respectfully submitted.

TOWNSEND COX,
THEO. B. BASSELIN,
DUDLEY FARLIN,
*Commissioners.*

# APPENDIX A.

## PROPOSED LEGISLATION AMENDING

THE

## LAWS ESTABLISHING

THE

## FOREST COMMISSION.

# APPENDIX A.

## Proposed Legislation Amending the Laws Establishing the Forest Commission.

*An act in relation to the forest preserve and Adirondack park.

**Forest Preserve Defined.**

§ 100. The forest preserve shall include the lands now owned or hereafter acquired by the state within the counties of Clinton, except the towns of Altona and Dannemora, Delaware, Essex, Franklin, Fulton, Hamilton, Herkimer, Lewis, Oneida, Saratoga, St. Lawrence, Warren, Washington, Greene, Ulster, and Sullivan, except

1. Lands within the limits of any village or city, and

2. Lands, not wild lands, acquired by the state on foreclosure of mortgage made to the commissioners for loaning certain moneys of the United States usually called the United States deposit fund.

**Forest Commission.— Organization.— Allowance for Expenses.**

§ 101. There shall be a forest commission consisting of five persons to be known as the forest commissioners, appointed by the governor, by and with the advice and consent of the senate, and holding office for the term of five years. The commissioners shall serve without compensation, but shall be paid for the reasonable expenses incurred in the performance of their official duties not to exceed the sum of five hundred dollars in any year to any

* This act was passed, as here printed, and became a law April 7, 1898, as chapter 332, Laws of 1898. It constitutes articles 6 and 7 of chapter 43 of the general laws.

commissioner. The superintendent, assistant superintendent, the two inspectors of forests and the secretary and clerks now employed by the forest commission, shall continue on the same terms and conditions until such employment shall be terminated or modified by the forest commission.

### Powers and Duties of the Commission.

§ 102. The forest commission shall:

1. Have the care, custody, control and superintendence of the forest preserve.

2. Maintain and protect the forests on the forest preserve and promote as far as practicable the further growth of the forest thereon.

3. Have charge of the public interests of the state with regard to forestry and tree-planting and especially with reference to forest fires in every part of the state.

4. Possess all the powers relating to the forest preserve which were vested in the commissioners of the land office and in the comptroller on May fifteen, eighteen hundred and eighty-five.

### May Prescribe Rules and Regulations.

5. Prescribe rules and regulations affecting the whole or any part of the forest preserve and for its use, care and administration and alter or amend the same; but neither such rules nor regulations nor anything contained in this article shall prevent or operate to prevent the free use of any road, stream or water as the same may have been heretofore used, or as may be reasonably required in the prosecution of any lawful business.

### Officials Employed.

6. Employ a superintendent, assistant superintendent, two forest inspectors, twelve foresters and such clerical force and agents as they may deem necessary, and fix their compensation, but the expenses and salaries of such employes shall not exceed in the aggregate, with the other expenses of the commission, the

sum appropriated therefor by the legislature, and the amount allowed to each forester for salary shall not exceed the sum of seventy-five dollars a month.

## Methods of Public Instruction.

7. Take such measures as in the judgment of the commissioners may be proper, and the state superintendent of public instruction and the regents of the university may approve, for awakening an interest in behalf of forestry in the common schools, academies and colleges of the state, and of imparting elementary instruction on such subjects therein; and prepare and distribute tracts and circulars of information, giving plain and concise instructions for the care of private woodlands, and for the growth of new forests upon lands that have been denuded, exhausted by cultivation, eroded by torrents, or injured by fire, or that are sandy, marshy, broken, sterile, or waste and unfit for other use. These publications shall be furnished, without cost, to any citizen of the state on application, and proper measures may be taken for bringing them to the notice of persons who would be benefited thereby.

8. Cause rules for the prevention and suppression of forest fires to be printed for posting in school-houses, inns, saw-mills, and other wood-working establishments, lumber camps, and other places in such portions of the state as they may deem necessary. Forest inspectors, foresters, firewardens, supervisors and school trustees shall cause these rules, when received by them, to be properly posted, and replaced when lost or destroyed. Any person maliciously or wantonly defacing or destroying any such notice shall forfeit to the people of the state the sum of five dollars for every such offense.

## Sale of Timber on the Forest Preserve.

§ 103. The forest commissioners may sell any spruce and tamarack timber, which is not less than twelve inches in diameter at a height of three feet above the ground, standing in any part of the forest preserve, and poplar timber of such size as the

forest commission may determine; and the proceeds of such sales shall be turned over to the state treasurer, by whom they shall be placed to the credit of the special fund established for the purchase of lands within the Adirondack park.

### Accounts and Annual Report of the Forest Commission.

§ 104. All income derived from state forest lands shall be paid over by the forest commission to the treasury of the state, and a strict account shall be kept of all receipts and expenses of the commission, which account shall be audited by the comptroller. The commission shall annually, in the month of January, make a written report to the legislature of their receipts and expenses and of all their proceedings, with such recommendations of further legislative or official action as they may deem proper.

### Partition of Lands.

§ 105. Whenever the state owns an undivided interest with any person in lands of the forest preserve, or holds and is in possession of such lands as joint tenant or tenant in common with any person who has a freehold estate therein, the attorney-general shall on the request of the forest commission, bring an action in the name of the people of the state, for the actual partition of such land; and on the written consent of the forest commission any such person may maintain an action for the actual partition of such land in the same manner as if the state were not entitled to exemption from legal proceedings, and service of process in such action upon the attorney-general shall be deemed service upon the state. Such actions, the proceedings and judgment therein and the proceedings under the judgment, shall be according to the practice at the time prevailing in actions of partitions, and shall have the same force and effect as in other actions, except that no costs against the state shall be allowed in such actions and no sale of such lands shall be adjudged therein. The forest commission may without action, but with the consent of the comptroller, agree with any person or persons owning lands, with the forest preserve jointly or as tenants in common, with the state for the

partition of such lands, and on such agreement and consent, the comptroller shall make on behalf of the people of the state, any conveyance necessary or proper in such partition, and such conveyance shall be forthwith recorded as now provided by law as to conveyances made by the commissioners of the land office.

## Taxation of the Forest Preserve.

§ 106. All wild or forest land within the forest preserve shall be assessed and taxed at a like valuation and rate as similar lands or individuals within the counties where situated. On or before August first in every year, the assessors of the town within which the lands so belonging to the state are situated shall file in the office of the comptroller and of the forest commission a copy of the assessment-roll of the town which in addition to the other matter now required by law shall state and specify which and how much, if any, of the lands assessed are forest lands, and which and how much, if any, are lands belonging to the state; such statements and specifications to be verified by the oaths of a majority of the assessors. The comptroller shall thereupon and before the first day of September following and after hearing the assessors and forest commission if they or any of them so desire, correct or reduce any assessment of state land which may be in his judgment an unfair proportion to the remaining assessment of land within the town, and shall in other respects approve the assessment and communicate such approval to the assessors. No such assessment of state lands shall be valid for any purpose until the amount of asessment is approved by the comptroller, and such approval attached to and deposited with the assessment-roll of the town and therewith delivered by the assessors of the town to the supervisor therefor or other officer authorized to receive the same from the assessors. No tax for the erection of a school-house or opening of a road shall be imposed on the state lands unless such erection or opening shall have been first approved in writing by the forest commission. Payments of the lawful and just amount of the taxes imposed under this section on lands so belonging to the state shall in every year be made by the treas-

urer of the state, on the certificate of the comptroller, by allowing to the treasurer of the county in which such lands are situated a credit of the amount of such taxes due on such lands payable by such county treasurer in such year to the state for state taxes; but no fees shall be allowed by the comptroller to the county treasurers in adjusting their accounts for such portion of the state tax so paid.

### Duties of Railroad Companies.

Section 107. Every railroad company whose road passes through waste or forest lands or lands liable to be overrun by fire within the state, shall twice in each year cut and remove from its right of way all grass, brush or other inflammable materials, but under proper care and at proper times when fire, if set, can be kept under control. All locomotives which run through forest lands shall be provided with approved and sufficient arrangements for preventing the escape of fire from their furnaces or ashpans, and with netting of steel or iron wire upon their smokestacks to prevent the escape of sparks of fire, and every engineer and fireman employed upon a locomotive shall see that the appliances to prevent the escape of fire are in use and applied as far as it can be reasonably and practically done. No railroad company shall permit its employes to deposit fire-coals or ashes upon their track in the immediate vicinity of wood lands, or lands liable to be overrun by fires, and where any engineers, conductors or trainmen discover that fences or other material or substances along the right of way upon wood lands adjacent to the railroad are burning or in danger from fire, they shall report the same at their next stopping place, and the person in charge of such stations shall take prompt measures to extinguish such fires and shall immediately notify the nearest firewarden or forester. In seasons of drought and especially during the first dry time in the spring after the snows have gone and before vegetation has revived, railroad companies shall employ a sufficient number of trackmen for the prompt extinguishment of fires; and where a forest fire is raging near the line of their road, they shall concentrate such help, adopt such measures as shall most effectually

arrest its progress. If any railroad company or any of its employes violate any provision of this section the company shall forfeit to the people of the state the sum of one hundred dollars for every such violation.

### Powers and Duties of Certain Officers in Case of Fire.

Section 108. The forest commission, forest superintendent, forest inspector, foresters and other persons employed by or under the authority of the forest commission and who may be authorized by the commission to assume such duty, shall in a town within or a part of the forest preserve, whenever the woods in any such town shall be on fire, perform the duty imposed on them, and in such case shall have the powers granted to justices of the peace, the supervisors and commissioners of highways with reference to the ordering of persons to assist in extinguishing fires or stopping their progress. The firewarden, or the supervisors where acting in general charge, may cause fences to be destroyed or furrows to be plowed, to check the running of fire, or in case of great danger, back-fires may be set along a road or stream or other line of defense, to clear off the combustible material before an advancing fire. No action for trespass shall be brought by any owner of land for entry made upon his premises by persons going to assist in extinguishing a forest fire, although such fire may not be upon his land. The compensation for services of persons who may assist in extinguishing forest fires shall be a town charge, and shall not exceed the sum of two dollars per day for each person employed; but all bills for such services must be approved by the firewarden of the town in which the fire occurred before payment shall be made.

### Supervisors to be Town Protectors of Land.

§ 109. The supervisor of every town in the state not within or a part of the forest preserve in which wild or forest lands belonging to the state are located shall be by virtue of his office the protector of such lands, subject to the instructions he may receive from the forest commission. He shall report to the district attor

ney for prosecution any acts of spoliation or injury that may be done, and such district attorney shall institute proceedings for the prevention of further trespass and for the recovery of all damages committed with costs of prosecution. The supervisors shall report their proceedings therein to the forest commission. In towns where the forest commission deem it necessary, they may serve a notice upon the supervisor, requiring him to appoint one or more forest guards, and if more than one in a town, the district of each shall be properly defined. The guards so appointed shall have such powers, perform such duties and receive such pay as the forest commission may determine.

### Supervisors Ex-officio Firewardens.

§ 110. Every supervisor of a town in this state, in which there are no wild or forest lands of the forest preserve and in which no firewarden is appointed by the forest commission, shall be ex-officio firewarden therein; but the supervisor may divide towns particularly exposed to damages from forest fires into two or more districts, bounded as far as may be by roads, streams of water or dividing ridges of land or lot lines, and appoint in writing one resident citizen in each district as district firewarden therein. A description of these districts and the names of the district firewardens thus appointed shall be recorded in the office of the town clerk. The supervisor may also cause a map of the fire districts of his town to be posted in some public place with the names of the district firewardens appointed. The cost of such map, not exceeding five dollars, shall be deemed a town charge, and the services of the firewarden shall also be deemed a town charge and shall not exceed the sum of two dollars per day for the time actually employed. Within a town in which there are wild or forest lands of the forest preserve, and in such other towns in the counties mentioned in section one hundred of this chapter as the forest commission may designate, such persons shall be firewardens as may from time to time be appointed by the forest commission and shall act during the pleasure of such commission, and all the provisions of this article with reference to super-

visors and district town wardens shall be applicable to them. On the discovery of a forest fire or a fire in any woods the firewarden of the district, town or county in which it shall be, shall take such measures as shall be necessary for its extinction, and for this purpose he may call on any person in the territory in which he acts or in its vicinity for assistance, and any person refusing to act when so called on, shall forfeit to the people of the state the sum of ten dollars. Any justice of the peace or commissioner of highways of the town in which any such fire shall be, shall act as firewarden with respect to any such fire, if the firewardens of the district, town or county are not taking such measures for its extinguishment.

### Supervisors to Report Fires.

§ 111. The firewarden of every town in which a forest fire of more than one acre in extent has occurred within a year shall report to the forest commission the extent of area burned over to the best of his information, together with the probable amount of property destroyed, specifying the value of timber, as near as may be, and amount of cord wood, logs, bark or other forest product, and of fences, bridges and buildings that have been burned. He shall make inquiries and report as to the causes of such fires, if ascertainable, and as to the measures employed and found most effectual in checking their progress. A consolidated summary of these returns by counties and of the information as to the same matter otherwise gathered by the forest commission shall be included in their annual report.

### Actions for Trespasses Upon the Forest Preserve.

§ 112. The forest commission may bring in the name of the people of the state any action to prevent trespass upon or injury to the forest preserve and recover damages therefor, or to recover lands properly forming part of the forest preserve, but occupied or held by persons not entitled thereto, or for the maintenance and protection of the forest preserve, which any owner of lands would be entitled to bring; or for cutting or carrying away, or

causing to be cut, or assisting to cut, any tree or timber within the forest preserve or any bark thereupon, or removing any tree, timber or bark, or any portion thereof, from such forest preserve. Every person violating the provisions of this section relating to the cutting or carrying away any timber, trees or bark, shall forfeit to the state the sum of twenty-five dollars for every tree cut or carried away by him or under his direction. The forest commission may, with the consent of the attorney-general and comptroller, employ attorneys and counsel to prosecute any such action, or to defend any action brought against the commission or any of its members or subordinates arising out of their or his official conduct with relation to the forest preserve. Any attorney or counsel so employed shall act under the direction of and in the name of the attorney-general. Where such attorney or counsel is not so employed, the attorney-general shall prosecute and defend such actions. A preliminary or final injunction shall, on application in an action brought by or at the instance of the forest commission, be granted restraining any act of trespass, waste or destruction upon the forest preserve. All such actions for the prosecution shall be brought in the county where the trespass is alleged to have been committed.

### Penalty for Setting Fire to Forest Lands.

§ 113. Any person who shall willfully or negligently set fire to, or assist another to set fire to any waste or forest lands belonging to the state or to another person, whereby such forests are injured or endangered, or who suffers any fire upon his own lands to escape or extend beyond the limits thereof to the injury of the woodlands of another or of the state, shall forfeit to the state for every such offense not less than fifty nor more than five hundred dollars, and be liable to the person injured for all damages that may be caused by such fires.

### Arrest of Offenders Without Warrant.

§ 114. The forest superintendent, inspectors, foresters, and other persons acting upon the forest preserve under the written employment of the superintendent or of the forest commission, may,

without warrant, arrest any person found upon the forest preserve violating any of the provisions of this article, and forthwith take the person so arrested before a magistrate having jurisdiction to issue warrants in such cases and there make or procure to be made a complaint in writing on which complaint the magistrate shall act as the case may require.

### Deer Parks in the Catskill Region.

§ 115. The forest commission shall set apart tracts of land, not exceeding three, of such size as they may deem proper, belonging to the state in the Catskill region, now constituting a part of the forest preserve, for the purpose of breeding deer and wild game. The commission shall purchase and turn out upon such lands such deer, or other game as they may think proper, and establish all proper rules for the protection of such land and the game thereupon. No game shall be killed, pursued, trapped, or in any way destroyed within the limits of such land so set apart for the period of five years from the time that such lands shall have been so set apart. The forest commission may receive private subscriptions of money and expend the same for the purposes specified in this section.

### Powers and Duties of Commissioners of Agriculture as to Forest Preserve.

§ 116. On the expiration of the terms of office of the forest commissioners appointed pursuant to this chapter, the forest commission shall cease and determine, and all its powers and duties shall devolve on the commissioner of agriculture.

### Adirondack Park.

§ 120. All lands now owned or hereafter acquired by the state within the county of Hamilton; the towns of Newcomb, Minerva, Schroon, North Hudson, Keene, North Elba, Saint Armand, and Wilmington in the county of Essex; the towns of Harrietstown, Santa Clara, Altamont, Waverly and Brighton, in the county of Franklin; the town of Wilmurt, in the county of Herkimer; the

towns of Hopkinton, Colton, Clifton, and Fine, in the county of Saint Lawrence, and the towns of Johnsburgh, Stony Creek, and Thurman, and the islands in Lake George, in the county of Warren, except such lands as may be sold as provided in this article, shall constitute the Adirondack park. Such park shall be forever reserved, maintained and cared for as ground open for the free use of all the people for their health and pleasure, and as forest lands necessary to the preservation of the headwaters of the chief rivers of the state and a future timber supply, and shall remain part of the forest preserve.

## Powers and Duties of Forest Commission as to the Adirondack Park.

§ 121. The forest commission shall have the care, custody, control and superintendence of the Adirondack park, and within the same and with reference thereto and to acts committed therein and to persons committing the same, all the control, powers, duties, rights of action and remedies belonging to such commission or the commissioners of the land office within and with reference to the forest preserve as to acts committed therein and persons committing the same. The forest commission shall have power:

1. To contract, as herein provided, for the purchase of land situated within the bounds of the park as defined in the preceding section. If any such lands can not be purchased on advantageous terms unless subject to leases or restrictions or the right to remove soft-wood timber, the contract may provide accordingly, but not for any such right, lease or restriction after ten years from the date of the contract, nor for the right to remove any such trees with a diameter of less than twelve inches at the height of three feet from the ground.

2. To contract, as herein provided, on giving notice by publication for at least thirty days in at least two newspapers published in the county where the lands are situated, to sell and convey any part of the forest preserve within the counties of Clinton, Fulton, Lewis, Oneida, Saratoga, Washington, Saint Lawrence, Franklin (except the town of Harrietstown), Herkimer (except

the town of Wilmurt), Essex (except the towns of Newcomb and North Elba) and Warren (except the islands in Lake George and land upon the shore thereof), the ownership of which is not, in the opinion of the commission, needed to promote the purposes of this or the preceding article. All such sales shall be made on sealed bids and to the highest bidder; but the commissioners must reserve the right to reject all bids.

3. To contract with owners of land situated within the bounds of the park that such lands may become part of the park and subject to the provisions of this article, in consideration of the exemption of such lands from taxation for state and county purposes, which contract shall contain a provision that the owners of such land and their grantees shall refrain forever from removing any of the timber thereupon, except spruce, tamarack or poplar timber twelve inches in diameter at a height of three feet above the ground, or fallen, burned or blighted timber, and such other and further conditions as to the right of occupancy of such lands by such owners or their grantees as may be equitable. Such contract may also reserve to the owners of such forest lands and their grantees the privilege of clearing portions of such lands for agricultural or domestic purposes, under regulations to be prescribed by the forest commissioners, but no such privilege shall give to the owners or grantees of said lands the right to clear more than one acre within the boundary of each one hundred acres of forest land covered by said contract.

4. To lease from time to time for a term not longer than five years, land within the forest preserve, not more than five acres in one parcel to any person, for the erection of camps or cottages for the use and accommodation of campers. Such leases shall contain strict conditions as to the cutting and protection of timber and the prevention of fires; a reservation for travelers of the right of passage over the land leased at all proper and reasonable times and a covenant on the part of the lessee to observe all ordinances or regulations of the forest commission theretofore or thereafter to be prescribed; and no exclusive privilege of fishing or hunting shall be granted to any person. All revenues received

from such leases shall be paid into the state treasury and shall be placed to the credit of the special fund established for the purchase of lands within the Adirondack park.

### Contracts and Conveyances.

§ 122. A contract mentioned in this article shall not take effect until approved by the commissioners of the land office, a certificate of which approval, certified by the clerk of said commissioners shall be attached to the copy of the resolution of the forest commission authorizing such contract. Every conveyance mentioned in this article shall be certified by the attorney-general to be in conformity with the contract and approval by him as to form before the acceptance or delivery thereof; those to be received by the commission, shall be made to the people of the state, recorded in the proper county and, after record, delivered to the commissioners of the land office as a part of their archives; those for land sold by the state shall be executed by the comptroller and may contain any restrictions, reservations or covenants which the commission deem proper to promote the purposes of this or the preceding articles.

### Proceeds of Lands Sold and Payment for Lands Purchased.

§ 123. The proceeds of lands sold under this article shall be paid to the state treasurer and held by him as a separate fund and special deposit at all times available for the purchase of other lands under this article. Payment for such purchases and for expenses necessarily incurred by the commission in the preliminary examinations of lands purchased or sold under authority of this article, or in the examination or title of land so purchased, or otherwise necessarily incidental to such purchases or conveyances, may be made from such fund or from any moneys appropriated therefor on the certificate of the commission and audit of the comptroller.

### Foresters and Employes to Act as Game Protectors.

§ 124. The foresters and other employes of the commission shall, when so directed by the commission, act as game protectors, and possess all powers within the park, conferred on such protectors

by law; they shall make such reports to the commissioners of fisheries as that commission from time to time require. The forest commission, with the approval of the commissioners of fisheries, shall provide for the enforcement of the game law within the park by such lawful means as such commission deem wise, in addition to such other means as are provided by law.

### Annual Report.

§ 125. The forest commission shall include in its annual report an account of its proceedings with reference to the park, including a statement of the number of acres of land purchased or sold during the year, the locality thereof, the price per acre paid or received, the amount of timber sold and the prices received therefor, the revenue from leases, and all other information of importance connected with such transfers and transactions; shall state the amount of money required in the next fiscal year for the purchase of lands and expenses of the park, and make such recommendations with reference thereto as it deems wise.

### Laws Repealed.

§ 126. Of the laws enumerated in the schedule hereto annexed, that portion specified in the last column is repealed.

### When to Take Effect.

§ 127. This chapter shall take effect immediately.

### Schedule of Laws Repealed.

# APPENDIX B.

# LIST OF LANDS

BELONGING TO THE

# STATE OF NEW YORK

WHICH

# FORM THE FOREST PRESERVE,

## DECEMBER 31, 1892.

[Compiled from the Records in the Comptroller's Office, at Albany, N. Y.]

# APPENDIX B.

## List of Lands Belonging to the State of New York Which Form the Forest Preserve.

### Area of the Forest Preserve.

The frequent and extensive changes in the State holdings throughout the Adirondack counties necessitates a new schedule of the lands constituting the Forest Preserve. Computations based on the following list show that the total area of the Preserve is 720,774 acres, distributed as follows:

### Adirondack Preserve.

| Counties. | Acres. |
|---|---|
| Clinton | 16,264 |
| Essex | 187,977 |
| Franklin | 88,720 |
| Fulton | 19,395 |
| Hamilton | 242,702 |
| Herkimer | 20,700 |
| Lewis | 5,220 |
| Oneida | 4,367 |
| St. Lawrence | 30,176 |
| Saratoga | 7,944 |
| Warren | 52,134 |
| Washington | 1,130 |
| | 676,738 |

## Catskill Preserve.

| Counties. | Acres. |
|---|---|
| Delaware | 10,742 |
| Greene | 661 |
| Sullivan | 577 |
| Ulster | 36,216 |
| | 48,196 |

## Total.

| | |
|---|---|
| Adirondack Preserve | 676,738 |
| Catskill Preserve | 48,196 |
| | 724,934 |

In addition to these areas there are 4,937 acres in Township 26, Essex County, which were purchased, in 1892, of Mr. P. J. Marsh; but as the deeds for this land have not been made, as yet, these lots are not included in the list.

Neither does the schedule include the accession from the tax sale of 1890, which is roughly estimated at 50,000 acres,* the exact amount being in doubt, as there yet remains some time during which occupants, upon whom notice has been served, may redeem their land. Owing to the uncertainty as to the action of some parties who might redeem it was thought advisable to omit, for the present, all the lands acquired through the sale of 1890.

The large decrease in acreage, almost all of which occurred in the Adirondack Preserve, is due to losses of land through cancellation and redemptions granted since 1888.

* For list of lands acquired at the tax sale of 1890, see Appendix C.

## CLINTON COUNTY.

### List of Lands Belonging to the State.

(*Total number of acres*, 16,264.)

| Town. | Lot. | DESCRIPTION. | Tax sales, or source of title. | Acres. |

# APPENDIX C.

# LIST OF LANDS

IN THE

## Counties Containing the Forest Preserve, Acquired by the State at the Tax Sale of 1890.

[Compiled from the Records in the State Comptroller's Office at Albany, N. Y., and Officially Certified to by the Comptroller.]

# APPENDIX C.

## Lands Acquired at the Tax Sale of 1890.

The lands described in this schedule were not included in the preceding land list, as shown in Appendix B, because the following list contains some lots to which the State may not have perfected its title.

By way of explanation some information regarding the law governing the redemption from tax sales may be timely. Lands sold at a tax sale may be redeemed as a matter of right, by the owner or any other person, within two years from the last day of the sale. The tax sale of 1890 closed on December fifteenth; consequently, the time within which land could be redeemed from that sale, except in cases of occupancy, expired December 15, 1892. But, in case of lands sold at a tax sale which are occupied by residents, or on which agricultural operations were carried on at the date on which the two years allowed for redemption expired, the law requires that the purchaser (in this case represented by the Comptroller) shall serve notice upon such occupant that the land has been sold for taxes. The occupant then has the right, and is required, to redeem within six months from the date on which proof of such service is filed in the Comptroller's office. These notices can not be served until after the date on which the two years allowed for redemption expires; and, they must be served within two years following that date. If the occupant fails to redeem within six months following the filing of the notice, "the conveyance becomes absolute, and the occupant and all other persons interested in the land are forever barred from all right or title thereto." It will therefore be seen that the time, within which occupants upon whom notice may yet be served may redeem their lands from the sale of 1890, will not expire until four years and six months from December 15, 1890; and that the State's title to the entire list of 1890 can not be perfected until June 15, 1895.

The usual number of redemptions, approximating one-third of the total, were made within the two years following the 1890 sale, and they have been stricken from the list, so that the schedule as given here represents lands which, with few exceptions, will remain in the possession of the State.

From the foregoing it appears that in case the Comptroller's agents in serving their notices, overlooked or were unaware of an occupancy, that the occupant, or any other person, could come forward at any subsequent time, no matter how extended the period, and by tendering the required amount, redeem the land. To remedy this defect in the law, the Forest Commission introduced a bill, which became a law prior to the sale of 1890, in which it was required that in case an occupant received no notice from the Comptroller, or purchaser, within the two years allowed the Comptroller for such notice, such occupant, within the succeeding or third year, must file with the Comptroller information and notice of his occupancy, or else the title of the State becomes absolute, irrespective of any failure to serve papers on the occupant.

The additional lands acquired at the tax sale of 1890, which have not been redeemed at the present time* are:

| Adirondack Preserve. | Acres. |
|---|---|
| Clinton county | 1,812 |
| Essex county | 3,034 |
| Franklin county | 1,802 |
| Fulton county | 2,388 |
| Hamilton county | 31,316 |
| Herkimer county | 9 |
| Lewis county | 23 |
| Oneida county | 226 |
| St. Lawrence county | 1,088 |
| Saratoga county | 3,013 |
| Warren county | 9,910 |
| Washington county | 100 |
| | 54,721 |

* The two years allowed by law for redemption having expired, there can be no further redemption from this list except in case where lands were occupied by residents on December 15, 1890, or lands on which agricultural operations were being carried on at that date.

## Catskill Preserve.

| | Acres. |
|---|---|
| Delaware county | 29 |
| Sullivan county | 102 |
| Ulster county | 1,005 |
| | 1,136 |

## Total.

| | Acres. |
|---|---|
| Adirondack Preserve | 54,721 |
| Catskill Preserve | 1,136 |
| | 55,857 |

## CLINTON COUNTY.

# APPENDIX D.

# CATALOGUE OF MAPS AND FIELD-NOTES.

# LIST OF MAPS.

The following catalogue contains a complete list of the maps and field-notes, on file in the various State Departments at Albany, pertaining to the lands situated in the Adirondack and Catskill Preserves. Included in this list, also, are a large number of maps and landpapers on file in the various county clerks' offices, and in the possession of individuals. This catalogue, which was first published in our Annual Report to the Legislature in 1890, has been thoroughly revised, and has been increased by the addition of such maps and papers as have been placed on file in the various departments in the meantime. The place of repository is noted in connection with each map or item, and so any citizen desirous of information as to the surveyed allotment or geography of any tract or parcel within the Catskill or Adirondack counties will be able to find in this list the map or maps giving the desired information, together with the office or place in which it may be found.

A catalogue of the maps and landpapers in the office of the State Departments was first published in 1859; but that list is of little help at present, owing to the large number of maps and surveys which have been made since that time. In 1864, a work entitled "The Calendar of New York Colonial Manuscripts," was published, which covered the period from 1643 to 1803. Both of these works are now out of print. As these publications were voluminous and included the land records of the entire State, any examination of their contents, with reference to the Adirondack and Catskill lands alone, was necessarily slow and uncertain. In order to facilitate the work connected with our landed matters the following list, which contains only such records as pertain to the counties in which the State Preserve is situated, was compiled.

It is unnecessary to dwell upon the value of this special catalogue, as that is evident to all who are familiar with the nature of the work in an office controlling large areas of land. The catalogue will also be of assistance to many citizens and landowners who are interested in the same territory.

# CATALOGUE

OF

## Maps, Field-notes, Surveys, and Landpapers of Patents, Grants, and Tracts Situate Within the Counties Embracing the Forest Preserve of the State of New York.*

Compiled by J. B. KOETTERITZ, C. E.

MEM.—The counties embracing the Forest Preserve are Clinton, Essex, Franklin, Fulton, Hamilton, Lewis, Oneida, Saratoga, St. Lawrence, Warren, and Washington, which for convenience have been designated as the Adirondack Preserve; and the counties of Delaware, Greene, Sullivan and Ulster, which have been designated as the Catskill Preserve.

*See Addenda.
